J. B. LANGIS.

E. E. PIERCE.

# Inaugural Address

Delivered by the Mayor. Hon. John B. Noyes,  
March 27, 1899

---

*Gentlemen of the City Council:—*

We are met together on this the beginning of a new year in the history of the municipal affairs of our city to organize a new city government and to take upon ourselves the responsibilities of our several duties, and I submit to you a brief review of the condition of the different departments of the city as appears from the annual reports, to which I ask your careful consideration.

There are many matters of importance that we shall be called upon to consider, and first let us consider the condition of our

## Finances.

The town report, dated February 15th, 1897, shows the net indebtedness at that time to have been \$90,588.39. The city report, dated February 15, 1899, shows a net debt of \$130,315.63, an increase for the first two years of our city government amounting to \$39,727.24. The valuation for the year 1898, as shown by the assessors' books, amounted to the sum of \$2,605,941.25. The appropriations, or amounts raised by taxation, were \$63,845.56; the tax rate \$2.45 on each one hundred dollars. This amount, as appears by the annual report dated February 15th, 1899, failed to meet the expenditures for the fiscal year, showing a deficit of \$7,946.88, and we are confronted with the problem whether we shall increase our taxation or reduce our expenditures so as to keep within our income and not increase our indebtedness. The retiring finance committee having failed to prepare, as required by section 13 of our city ordinances, an estimate of the amount of money necessary to be raised for the ensuing financial year, you will have to rely on your own

good judgment in making the appropriations for the several departments, and I ask you to exercise the most careful consideration in the matter. Elected as we are to transact the city's business, we should practice the strictest economy, consistent with the proper management of the different departments of the city remembering that an increase of taxation falls heavily on a large proportion of our fellow citizens.

### Schools.

The Board of Education report that the general condition of our schools was never better than at the present time. The Marston school, a new four room building which has been erected the past year, is of sufficient capacity to accommodate 200 pupils, and is said to be one of the best appointed in the city. It is not to be expected that we shall be called upon to build any new school-houses this year, and with the exception of repairs to the high school and the school building located on the west side of the Grand Trunk railroad, we are not likely to be called upon for expenditures on school buildings. In our appropriations for school purposes we should be as generous as we can, bearing in mind that our schools are never too good, and by some are said to be not good enough.

### Streets.

In the absence of an estimate from the retiring finance committee, and judging by the amount of money expended in the street department the past year, as shown by the treasurer's report, one would be led to believe that our streets must be in good condition. The amount of money expended on streets, as shown by the disbursements of the city treasurer, was \$12,037.59, plus \$600. the salary of the street commissioner, making a total of \$12,637.59. Of this amount it appears that the sum of \$328.60 only was expended on new streets. I am informed that there are a number of petitions on file asking for new streets, and on which some action will have to be taken in the near future.

### Sewers.

Our sewerage system was extended to a considerable extent the past year, but in all probability we shall be called upon for an extension of sewers in the vicinity of the school house on the west side of the Grand Trunk railroad and also on the east side of the

river and other places. I understand that the petition for a sewer in the vicinity of the school house has passed its third reading in the council and is waiting the signature of the mayor.

### Fire Department.

Our fire department has been kept up to its standard, and I think you will agree with me in saying that our firemen and the department are as efficient as can be found in any city of the size of ours, and I recommend that an appropriation be made to defray the cost of finishing Hose House No. 1, and also to remodel Hose House No. 2, as recommended in the report of the chief engineer of the fire department.

### Sanitary Department.

Our Board of Health, or sanitary department, is one that should not be overlooked, and I am pleased to say that good progress has been made in the past year, although there is much that remains to be done, and in the efforts of the officers to clean up our city and protect it from contagious diseases they should receive our hearty co-operation.

### Police Department.

The report of the City Marshal states that the expenses of the police department for the past year, have been quite heavy, and among other causes of expense that owing to the serious illness of the City Solicitor it became necessary to employ other counsel. In looking over the report I do not find any sums charged to the police department for the services of the city solicitor or other counsel. In the annual report, under the heading of salaries, on pages 102 to 107 inclusive, are to be found items belonging to the police department amounting to \$4,807.16, and on pages 125 to 132 inclusive, under the heading of miscellaneous, are to be found items amounting to \$1,047.18. These items, together with the salary of the police judge, amount to the sum of \$6,254.34. These several items should have been entered on the books under the head of police department, so as to enable anyone to find out the actual expense of the department at all times. It is to be expected that in the future an account

will be opened with not only this but all other departments that have been omitted.

### Assessors.

It will be your duty to appoint three assessors, one from each ward, and too much care cannot be exercised in their selection, as they are among the most important officers in the city. They should be men of good judgment and business ability, having a knowledge of real estate and other property, and possessed of sufficient stamina to enable them to stand up to their convictions under all circumstances.

In conclusion, gentlemen, I ask you to co-operate with me in whatever may appear to be for the best interests of our city, bearing in mind at all times that honesty and integrity are the fundamental principles which should guide us in the performance of our duty. We should in nowise evade the responsibilities of the duties we have this day assumed, but we should take up the work with earnestness, profiting by the wisdom of our predecessors, and doing the best we can to avoid errors. By so doing we shall be able to give to the city a clean, economical, business-like administration.

I wish at this time to express my appreciation of the confidence which the citizens of Berlin have shown by electing me to the highest executive office in their gift, and it is my desire, with your assistance, to so conduct the affairs of our city, that their confidence may never be shaken. May we ever act for the best interest of the city, remembering always that whatever honor we gain is measured only by the honor we bring to the discharge of our duties.

# Ordinances.

---

AN ORDINANCE in relation to general provisions of the City of Berlin.

*Be it ordained by the City Council of the City of Berlin as follows:*

SECTION 1. All by-laws passed by the City Council shall be termed ordinances, and the enacting style which shall be but once recited in each ordinance shall be: "Be it ordained by the City Council of the City of Berlin as follows:"

SECTION 2. All ordinances which shall be passed by the City Council of the City of Berlin shall be endorsed and recorded by the city clerk in a fair and legible hand, without interlineation or erasure, and in the order in which they shall be passed, in a book to be kept for that purpose, made of strong linen paper, strongly bound, with a proper margin and index, and to be lettered, "Record of Ordinances of the City of Berlin," which book shall be preserved in the office of the City Clerk subject to the inspection of the citizens of said city.

SECTION 3. All ordinances of the City Council, and such resolutions and orders as the City Council may direct, shall be published in one or more newspapers printed and published in the city as the city Council shall from time to time designate.

SECTION 4. It shall be the duty of the City Clerk to preserve four copies of the ordinances and resolutions hereafter adopted by the City Council by cutting the same from the newspapers in which they are printed from time to time, and pasting them into blank leaves of the revised ordinances, preserving the numbers thereof and making reference thereto in the index of said ordinances, as recorded in the city records, one copy thereof for the use of the Mayor, another copy for the use of the Council, the third thereof for the use of the City Clerk's office, and the fourth copy thereof for the use of the City Solicitor.

SECTION 5. First. The repeal of an ordinance shall not revive

any ordinance in force before, or at the time the ordinance repealed took effect.

Second. The repeal of an ordinance shall not affect any punishment or penalty incurred before the repeal took effect, or any suit, prosecution or preceeding, pending at the time of the repeal, for an offence committed under the ordinance repealed.

### City Seal.

SECTION 1. The seal of the city shall be circular in form.

### Finances and Accountability for Expenditures.

SECTION 1. There shall be appointed at the commencement of each municipal year a standing committee on accounts and claims to consist of three members of the City Council, which committee shall meet at least once in each month and carefully examine and audit all claims and accounts against the city which shall be laid before them, approved as shall be provided in the following section, and shall allow and pass the same if found to be correct and justly due.

SECTION 2. No account or claim against the city except judgments of judicial courts shall be received or acted upon by the committee on accounts and claims unless such account or claim shall be accompanied with the approval of the officer, committee or agent authorized in behalf of the city, to make the contract or cause the expenditure to be made.

SECTION 3. The city clerk shall receive all accounts and claims from persons having claims against the city which shall have been approved as provided in the foregoing section.

He shall carefully examine all such accounts and claims and see that they are correctly cast, and present the same, folded, filed and numbered, to the committee on accounts and claims.

He shall keep a book in such form and manner as the committee shall direct, wherein he shall enter the date and amount of every account and claim against the city as finally corrected and allowed by said committee, and also the name of the person to whom the same has been allowed designating the fund of appropriation from which the same shall be paid.

SECTION 4. The city clerk shall also, under the direction of the committee on accounts and claims, keep a book or ledger in which he shall enter the various appropriations made by the city

council, each under its appropriate head, and charge to each the different payments and expenditures which shall from time to time be made therefrom. Whenever an appropriation shall be expended the city clerk shall give notice to the Mayor, the city council and to said committee on accounts and claims, and said committee shall pass no claim or account chargeable to any appropriation which has been expended until the city council shall have provided the means of paying the same. The city clerk shall open an account with the city Treasurer, charging him with the amount of loans to the city and all sums of money paid to him on behalf of said city, by the collector or other officer or agent of the city, or by any person in any way indebted to the city, and also with all notes, bonds, mortgages or other securities in the hands of the Treasurer, or which may pass into his hands, belonging to the city, to the end that the amount and value thereof may at any time be seen on his books.

SECTION 5. No money shall be drawn out of the city treasury except upon the written order of the Mayor, addressed to the Treasurer, and countersigned by the city clerk, and numbered so as to correspond with the account or claim it shall be drawn to pay; and no account or claim against the city, arising from any contract or agreement for labor, or for the purchase or sale of any goods, wares, or merchandise in which any member of the city council, or any officer or agent appointed by the city council, or either branch thereof, has been directly or indirectly interested in a private capacity, shall be approved by the committee, nor shall any order therefor be drawn upon or paid by the city Treasurer unless such contract or agreement shall have been authorized or ratified by the city council; but such restriction shall not be construed to prevent the purchase of ordinary supplies from members of the city council who may be engaged in trade, nor the employment of the members of the city council in their ordinary vocation, by duly authorized heads of departments; and no account or claim for the hire of horses or carriages, or for any other thing where the credit of the city has been used, shall be allowed unless incurred by the authority of the city council, or with the approval of the Mayor, nor unless proper vouchers therefor shall be presented by the person incurring the debt.

SECTION 6. In all bills against the city which shall be presented for payment each item shall be specifically set forth, and no claim exceeding ten dollars in amount shall be allowed and paid unless approved by the city council. The Mayor is hereby authorized to draw orders on the Treasurer for the payment of all

accounts and claims allowed, as provided in this chapter, but he shall not draw an order in payment of any services rendered or any material furnished for any department beyond the sum specially appropriated therefor by the city council.

SECTION 7. Any sum of money which shall have been especially appropriated for the payment of principal or interest due on any note or other security of the city, or for the state and county taxes, may be drawn from the treasury and paid to the order of the Mayor, for the purpose for which it was appropriated, without any action on the part of the committee on accounts and claims; and whenever it shall be necessary to pay money in advance on contracts made, or for work begun but not completed, the Mayor, upon being satisfied of such necessity, may draw his order upon the Treasurer for a sum not exceeding \$500 at any one time, taking security for the same.

SECTION 8. Whenever any money shall be drawn from the treasury for the purposes specified in the preceeding section the city clerk shall report the same and the amount thereof to the committee on accounts and claims at their next meeting, and shall charge the same under the appropriate head of expenditures.

SECTION 9. All city officers who shall in their official capacity receive any money on behalf of the city, shall pay the Treasurer the amount in their hands, once in three months, or oftener if required. All other persons who shall at any time have money in their hands belonging to the city shall forthwith pay the same to the Treasurer.

SECTION 10. In all cases of the payment of money to the city treasurer he shall give his receipt to the person giving the same, which receipt shall be delivered to the city clerk and filed in his office, and the city clerk shall give to the person paying a certificate as evidence of such payment.

All city officers and agents receiving money in behalf of said city shall deliver to the City Clerk, once in three months, a report of the amount received, and what disposition has been made thereof, except in cases otherwise provided.

SECTION 11. The City Treasurer shall keep in a book provided a true account of all his receipts and payments for the city making the same conform in mode of entry as near as may be with the accounts kept by the City Clerk.

He shall not pay any money out of the treasury except upon

orders of the Mayor drawn in the form prescribed in the fifth section. He shall at the end of each six months certify to the City Clerk all amounts by him paid for maturing bonds, interest, state or county taxes, or any other purpose for which he has not received an order countersigned by the City Clerk, and the City Clerk shall enter each of said amounts in the ledger under its appropriate head as provided in section four.

He shall, when required, lay before the City Council a statement of the condition of the treasury and of all moneys received and paid by him on city account. Whenever he is authorized by the city council to borrow money on the credit of the city, all notes and certificates of indebtedness given therefor shall be signed by the mayor and the city Treasurer, and countersigned by the city clerk, and all such notes and certificates shall be registered in books kept for that purpose in the offices of the city treasurer and city clerk respectively. Such registers should describe such notes and certificate by number, date and amount, the name of the person to whom payable, where payable, and the rate of interest, and the date of ordinance or resolution authorizing the same.

SECTION 12. There shall be appointed at the commencement of each municipal year a committee on finance, consisting of the mayor and two members of the council, which committee shall negotiate all loans to the city which shall be authorized by the city council, and shall report the same to the city treasurer.

SECTION 13. The committee on finance shall at the close of each financial year prepare and lay before the city council an estimate of the amount of money necessary to be raised for the ensuing financial year, under the various heads of appropriations, and the ways and means of raising the same, and shall also at the close of each financial year prepare and lay before the council a statement of all the receipts and expenditures of the preceding financial year, and in detail the amount of appropriation and expenditure for each department; and said committee on finance at the close of each financial year, and before making their annual report of receipts and expenditures, are hereby authorized to transfer from any unexpended balances of appropriations so much thereof as shall be required to supply such deficiencies as have been created by the necessary overdrawing of the other appropriations of the same financial year, and said statement shall be accompanied with a schedule of the property, real and personal,

belonging to the city, and the value thereof and the amount of the city debt.

SECTION 14. The committee on finance shall at the close of each financial year, and as much oftener as they shall deem it expedient, examine and audit the accounts of the city treasurer, and for that purpose shall have access to all the books and vouchers in possession of the city clerk or any other officer of the city. Said committee shall not only compare said accounts with the vouchers thereof, but shall ascertain whether all moneys due the city have been collected and accounted for. They shall also examine all bonds, notes and securities in the treasurer's hands, belonging to the city, and make report thereof to the city council.

SECTION 15. The city treasurer shall make up his accounts on the 15th. day of February, and the financial year shall begin on the 15th. day of February in each year.

### City Clerk.

SECTION 1. In addition to his duties prescribed by law the city clerk shall perform such duties in connection with his office as the city council shall from time to time fix and determine.

### City Solicitor.

SECTION 1. The city solicitor shall act as attorney for the city in all criminal and civil cases in which the city is interested. He shall, when required by the mayor and council, or any officer of the city, advise them on any question of law relating to their business.

He shall receive for his services as such officer such salary as the city council shall from time to time fix and determine. In all cases where his attendance may be required out of the city reasonable travelling expenses shall be allowed him.

### Overseer of the Poor.

SECTION 1. The Overseer of the Poor shall perform the same duties and be subject to the same liabilities as are now prescribed for and incumbent on overseers of the poor of towns, and perform such other duties as the city council may prescribe. He shall re-

ceive such compensation or salary for his services as the city council may from time to time fix and determine.

### Highway Commissioner.

SECTION 1. The duties and liabilities of the highway commissioner shall be such as prescribed by law for highway agent of towns, and such other duties as the mayor and council may from time to time require.

SECTION 2. The highway commissioner shall receive such compensation for his services as the city council may fix and determine.

### City Civil Engineer.

SECTION 1. The city civil engineer shall be under the direction of the city council. He shall have charge of all plans of public grounds, streets, sewers and main drains of the city, except such as pertain to the city system of sewerage. He shall, by himself or assistants, for whom he shall be responsible, make all surveys, estimates, measurement and levels, and perform such other duties as may be required of him by the city council. All books and papers containing files, notes and other memoranda shall be the property of the city.

SECTION 2. The said engineer shall receive such salary as the city council may fix and determine.

### Board of Health.

SECTION 1. The Board of Health shall have and exercise all the powers vested in, and shall perform all the duties prescribed for health officers of towns as provided by law.

SECTION 2. The Board of Health shall receive such compensation for their services as the city council may from time to time fix and determine.

### Collector of Taxes.

SECTION 1. The duties of the collector of taxes shall be such as are prescribed by law for the collector of taxes in towns, and

his compensation shall be such as the mayor and council may from time to time determine.

### **Sewers.**

SECTION 1. The present system of house sewerage together with any additions to the system which may hereafter be made shall be under the general charge of an officer to be elected annually by the city council to be known as sewer commissioner. The said sewer commissioner shall be under the direction and control of the city council in all matters pertaining to the construction, care and management of the system of house sewerage of the city. He shall perform such duties connected with his office as the council shall from time to time fix and prescribe. He may make such rules and regulations as to the use of said sewers as he shall deem proper, subject to the approval of the city council.

SECTION 2. He shall receive for his services such salary or compensation as the city council may determine.

### **City Marshal and Police.**

SECTION 1. The city marshal shall give bonds in the sum of three hundred dollars (\$300.00) satisfactory to the city council for the faithful performance of his office.

SECTION 2. The city marshal shall perform such duties as are prescribed by law and such further duties as the mayor and council may from time to time require. He shall observe all wants and defects of the highways and streets and give immediate notice thereof to the highway commissioner, to the end that they may be amended.

He shall lay before the mayor and council once a month, a statement of all offences against the laws of the state and the ordinances of the city and the result thereof.

SECTION 3. The marshal and other police officers and watchmen, when on duty shall wear such badge of their office as the mayor and council shall prescribe.

SECTION 4. It shall be the duty of the city marshal in addition to his other duties, to ascertain the circumstances of all accidents happening in which the city may have an interest, and all other

matters of a similar nature when so directed by the mayor, and to make a report to the mayor and city solicitor of his investigation in each case.

SECTION 5. Should any police officer or watchman fail to comply with his instructions or be otherwise remiss in his official duties, the city marshal, at his discretion, temporarily, may suspend such delinquent and he shall report the facts in any such case to the city council, and the matter shall, if in their judgment the interest of the city require it, investigate the same without delay, and reprimand or remove from office any police officer or watchman who may be found guilty of such neglect.

### **Regulating Billiard Saloons.**

SECTION 1. No person shall keep a billiard table, pool table nor bowling alley in the city of Berlin, except for private use, unless a license therefor in writing, specifying the place in which it is to kept, shall first be obtained from the city clerk, subject to the approval of the city council.

SECTION 2. Every person shall pay for such license, for the use of the city, the sum of five dollars on each billiard table pool table and bowling alley, on or before the first day of May annually, and such license shall be revoked or annulled at the pleasure of the mayor and council, and shall be forfeited upon the conviction of the violation of any of the provisions of this chapter. Such license may also on application, be issued for six months from the first day of May, on payment of five dollars, subject to the provisions of this ordinance.

SECTION 3. No keeper of a billiard table shall allow or permit any minor to play at billiards or any other game in his saloon, or to remain therein or in any room connected therewith, except with the written consent of the father or guardian of such minor.

SECTION 4. The violation of any of the provisions of this chapter shall be punished by a fine not exceeding ten dollars, and such an offender shall forfeit his license and be required to keep the peace, and be of good behavior.

SECTION 5. It shall be the duty of the city marshal to see that the provisions of this chapter are enforced. The fees for license for

the current year shall be immediately due and payable.

Passed April 21, 1897.

Approved,

H. F. MARSTON, Mayor.

Attest:

J. A. LETOURNEAU, City Clerk.

---

AN ORDINANCE to regulate the admission of children into the public schools of the city of Berlin.

*Be it ordained by the City Council of the City of Berlin as follows:*

That pupils who are five years old and upwards shall be admitted to the primary schools only during the first and second weeks of the fall and spring terms; but pupils who are qualified to enter existing classes may be admitted at any time during the school year by applying to the Secretary of the Board of Education.

Passed May 11, 1897.

Approved,

H. F. MARSTON, Mayor.

Attest:

J. A. LETOURNEAU, City Clerk.

AN ORDINANCE relating to the Fire Department.

*Be it ordained by the City Council of the City of Berlin as follows.*

SECTION 1. The Fire Department shall consist of the Chief Engineer and Assistant Engineer, to be denominated First and Second Engineer and suitable number of hose men, not less than twelve or more than eighteen, to form a home company, and a

suitable number of hook and ladder men, not less than eight or more than fifteen to form a company.

SECTION 2. The Board of Councilmen shall, in case of a vacancy in the Board of Engineers fill such vacancies by appointment, and said engineer shall constitute the Board of Engineers, and shall perform the duties and exercise the power of a fire ward.

SECTION 3. Every Hose Company shall have attached thereto a Foreman and Assistant Foreman, also the hook and ladder company shall have attached thereto a Foreman and Assistant Foreman who must be acceptable to the Board of Engineers.

SECTION 4. No member of the Fire Department shall hold the office of Marshal, Assistant Marshal or Police Officer.

SECTION 5. In case of fire the Chief Engineer shall have the sole and absolute control and command over the Assistant Engineer and all other officers of the Fire Department

SECTION 6. In the absence of the Chief Engineer the Assistant Engineer next in rank who may be present shall have all the power and perform the duties of the Chief Engineer.

SECTION 7. The foreman of each hose company and the foreman of the hook and ladder company shall at least twice in each month, and also in addition thereto, within twenty-four hours after every fire, see that such fire apparatus as they may have charge of has been operated and examined minutely and carefully and report the condition thereof to the Chief Engineer.

SECTION 8. It shall be the duty of the members of the Fire Department upon an alarm of fire to repair to their respective places, place themselves under the Captain in command and obey his orders; and upon receiving his permission, return the fire apparatus to their appropriate places in a quiet and orderly manner.

SECTION 9. The foreman of each hose company and hook and ladder company shall cause the fire apparatus entrusted to their care, respectively, to be thoroughly cleaned, oiled, washed and securely housed.

SECTION 10. All species of gaming or playing of games of chance, and all disorderly conduct in any hose house, or hook and ladder house, or any room connected therewith, at any and all times is forbidden; and all assembling of persons on the Sabbath in any of the said houses, or rooms, except for the purpose of do-

ing necessary work on the fire apparatus belonging to such house, or room, or of accompanying such fire apparatus to a place of fire or of returning with the same, is also expressly forbidden and it shall be the duty of the Chief Engineer or the City Marshal to see that the provisions of this section are enforced.

SECTION 11. No hose or hook and ladder carriage shall be taken to a fire out of the city without permission of an Engineer, nor shall any apparatus of the Fire Department be taken from the city except in case of fire, without permission of the Mayor.

SECTION 12. The Board of Engineers shall examine into shops and other places where shavings and other combustible materials may be deposited or collected and at all times be vigilant in the removal of same; whether in their opinion the same may be dangerous to the security of the city from fires, and direct the owners, tenants, or occupants of said shop or other places to remove the same, and in case of such owner, tenant or occupant's refusal or neglect to do so, such person shall be liable to a penalty not exceeding ten dollars (\$10) for such neglect or refusal; and whenever, in the opinion of the Board of Engineers any chimney, hearth, oven, stove, pipe, flue or other fixtures, or any explosive or inflammable fluid or other material, or whatever else may give just cause of alarm, shall be altered, repaired or removed, they, the said Engineers, shall forthwith notify and direct the owner, tenant or occupant of the premises upon which the same are situated to alter, repair or remove the same, as the said Engineer shall direct, and in case such tenant, owner, or occupant shall refuse or neglect to do so, the person so refusing or neglecting shall also be liable to a penalty not exceeding ten dollars. Any person who shall obstruct the Engineer, or his assistants, in carrying out the provisions of this sections, shall be liable to a penalty not exceeding ten dollars,

SECTION 13. If any person shall willfully or maliciously injure any of the apparatus owned by the city or shall ride or drive any animal or carriage across any hose or other apparatus when in use at any fire or any trial thereof he shall be fined not less than five dollars nor more than twenty dollars and shall be required to pay all damages by him caused.

SECTION 14. All factories, hotels, tenement houses, public halls, school-houses and other buildings used as places of public resort in the city shall be provided with ample means of escape in

case of fire, and acquedate facilities for entrance and exit on all occasions and be so erected as to not endanger the health and safety of persons who may occupy them.

SECTION 15. The Fire Engineers shall constitute a Board for the inspection of the buildings and halls mentioned in the preceding section and shall from time to time inspect the same and after notifying and hearing all parties interested may thereupon direct such alterations in any building or hall as may be necessary by the provisions of said section and may order such building or hall to be closed until such alterations are made.

SECTION 16. Every person aggrieved by any decision of such inspectors may appeal therefrom as provided in Section 5, of Chapter 116 of the public statutes.

SECTION 17. Any person who shall let or use any building for the purposes specified in section 14 of this Chapter, after such building shall have been ordered closed or altered, as provided in section 15 of this chapter, until such order has been complied with, or reversed shall be punished as provided in section 6 of chapter 116 of the public statutes.

SECTION 18. For each absence from fire or neglect of duty the Chief Engineer and Assistant Engineers shall be fined one dollar (\$1.00) each, and others who are members of the department, fifty (50) cents each; provided, however that any fireman liable as above may in case of temporary absence or sickness have power of substitution by giving notice, each Assistant Engineer to the Chief, each Captain to an Engineer, and each other member to the Captain of his company.

Passed August 3, 1897.                      Approved.

H. F. MARSTON, Mayor.

Attest:

J. A. LETOURNEAU, Clerk.

### Sewers.

AN ORDINANCE relating to Sewers.

*Be it ordained by the City Council of the City of Berlin as follow:*

SECTION 1. The word "drain," when used in ordinances, shall be construed to mean a pipe or conduit for the conveyance of storm

or ground water; and the word "sewer" when so used, shall be construed to mean a pipe or conduit for the conveyance of sewerage of buildings only.

SECTION 2. To the committee on sewerage, under the direction of the City council, shall be entrusted the general management and supervision of the public sewers which are now or may hereafter be constructed and owned by the city, or which may be permitted to be constructed or opened by its authority. The appropriations for sewers shall be expended under their direction and they shall have full power to make all necessary repairs, extensions or improvements on said sewers, to procure new sewer pipes, and all other necessary materials, and to make all necessary contracts in connection therewith; but they shall make no contracts nor do any work in excess of the appropriation.

SECTION 3. All connections of house sewers, drains and plumbing work with the sewer system of the city of Berlin shall be made in accordance with these rules and regulations; and no plumbing house drainage or connection with the sewer shall be made by any person not licensed to do such work by the sewer committee.

### Application for Licenses.

SECTION 4. Any person desiring to do business as a plumber in connection with the Sanitary Sewer System in the city of Berlin, shall file in the office of the Superintendent of Sewers a petition giving the name of the individual and place of business, and asking to be licensed as a plumber. Said petition must be signed by two responsible citizens of the city of Berlin, vouching for his business capacity and reputation and that he is willing to be governed in all respects by the rules and regulations which are now or may be adopted by the city. No license shall be granted for more than one year, and all licenses shall be granted to expire on the first day of April. The fee shall be two dollars for each license.

SECTION 5. Application for permits to connect with the sewer system or do plumbing work to be connected therewith, must be made in writing by the owner of the property or his authorized agent. Permits to make connection with the Sewer System will be issued only when the plumbing in the house or building to be connected is in accordance with the rules for plumbing hereafter prescribed; and all work done shall be subject to the inspection of

the Superintendent of Sewers, and no alteration shall be made in any plan or in any work without a special permit in writing from him.

### Statement of Work.

SECTION 6. A plumber shall, on the completion of the work, file in the office of the Superintendent of Sewers, on blanks furnished for the purpose, a correct statement of the work done under the permit.

### Cesspools.

SECTION 7. No open gutter, cesspool or privy-vault shall be connected with any sewer or drain.

### Injury to Sewers.

SECTION 8. No person, firm or corporation shall injure, break or remove any portion of any man-hole, flush-tank or any part of the Sewer System; or throw or deposit, or cause to be thrown or deposited in any sewer opening or receptacle connected with the Sewer System any garbage, offal or dead animals, ashes, cinders or any other thing whatsoever, except feces, urine, the necessary water-closet paper, liquid house slops, also roof and cellar water by special permit.

### Water or Gas Pipe.

SECTION 9. Any person, firm or corporation desiring to lay pipe for water, gas, steam or any purpose in any street, alley or property upon which sewers are laid shall give, at least, twenty-four hours' notice to the Superintendent of Sewers and the manner of excavating, laying and backfilling shall be subject to the approval of the Superintendent. All such work shall be planned and executed so that no injury shall occur to any public sewer or drain, or to any house-sewer or drain, connected therewith.

### Obstructions.

SECTION 10. The Superintendent shall have the power to stop

and prevent from discharging into the Sewer System any private sewer or drain through which substances are discharged which are liable to injure the sewer or obstruct the flow of the sewerage. Before any private drain or sewer shall be connected with the System, the owner of the private drain or sewer shall prove to the satisfaction of the Superintendent that it conforms in every respect to the rules and regulations.

### Plumbing Rules.

SECTION 11. Each and every connection with the public sewer shall be first quality, salt-glazed, vitrified pipe not less than four inches internal diameter, which may extend from the sewer to within three feet of the house; and from thence the house drain shall be of cast iron pipe satisfactory to the Superintendent of Sewers and shall extend upwards full size so that its upper terminus shall communicate directly with the open air in a manner which shall secure perfect ventilation.

No brick, sheet metal, earthenware or chimney flue shall be used as a sewer ventilator nor to ventilate any trap, drain, soil or waste pipe.

### Every Fixture Shall be Effectually Trapped.

SECTION 12. No trap or any manner of obstruction to the free flow of air through the whole course of the drain and soil pipe will be allowed. Every fixture shall be effectually trapped. Traps to be as near fixtures as possible and no trap shall be more than three (3) feet from the fixture which it is to serve.

Every fixture having a waste pipe shall be furnished with a Sanitas Anti-Syphon Trap or be vented by special air pipe (of size not less than the waste pipe when there is more than six (6) feet of said pipe) between trap and said pipe. Star or Battle Traps and four (4) inch water-closet traps may be used without venting, if placed on pipe extending through roof if not more than six (6) feet away.

All vent pipes from the inside of the roof must be at least four (4) inches in diameter. No pan closet to be allowed, and all water closets must have a seat vent of not less than two (2) inches into the kitchen chimney when practicable.

SECTION 13. All soil and waste pipes shall be as direct as pos

sible, and all parts of the work shall be so arranged that they may be at all times readily examined and repaired. When necessarily placed within partitions or in the recesses of walls, soil and waste pipes must be covered with wood-work so fastened with screws as to be readily removed.

SECTION 14. All joints in iron drain pipes, except when screw joints are used, must be so filled with oakum and lead, and hand caulked as to make them gas tight. All connections of lead pipes with iron pipes must be made with a brass or lead sleeve, or ferruled as large or larger than the lead pipe put in the hub of the branch of the iron pipe and caulked with oakum and lead. The lead pipe must be attached to the ferrule by a wiped or overcast joint.

SECTION 15. The least inclination that can be allowed for the house drains in one (1) in sixty (60) without the written permission of the Superintendent of Sewers. The ends of all pipes not to be immediately connected must be securely closed, water tight, with imperishable material. The inside of every drain after it is laid must be left smooth and clean throughout its entire length.

SECTION 16. The backfilling over drains must be puddled or rammed, all water and gas pipes protected from injury or settling and the surface of the street made good within forty-eight hours after the completion of that part of the drain lying within the public way.

SECTION 17. Any person violating any of the provisions of these rules and regulations shall, upon conviction thereof, be fined not exceeding twenty-five (\$25) dollars for the use of the city of Berlin; and any plumber or drain layer violating these rules and regulations shall forfeit his license.

SECTION 18. The above rules and regulations shall take effect when adopted by the City of Berlin.

Passed September 7, 1897.

Approved,

H. F. MARSTON, Mayor.

Attest:

J. M. LETOURNEAU, City Clerk

AN ORDINANCE in relation to the inspection of buildings.

*Be it ordained by the City Council of the City of Berlin as follows:*

SECTION 1. The Inspector shall examine all buildings in the course of erection or alteration as often as practicable and make a record of all violations of the laws herein.

SECTION 2. Hereafter in the City of Berlin no public building damaged by fire or other casualty shall be repaired or restored to its former condition and no work which impairs the strength or increases the fire risk of any wall, structure or building shall be done except upon a permit from the inspector.

SECTION 3. No woodwork will be allowed to be put within one inch of any chimney.

SECTION 4. All buildings over twenty feet high shall have permanent means of access to the roof from the inside.

The opening shall be not less than eighteen inches by thirty inches.

SECTION 5. Any building which by defect, accident or decay or overloading is unsafe shall be vacated forthwith if and when the inspector shall so order.

SECTION 6. No smoke pipe in any building with wooden or combustible floors or ceiling shall hereafter enter any flue unless the said pipe shall be at least twelve (12) inches from either the floor or ceiling and in all cases where smoke pipes pass through stud or wooden partitions of any kind whether the same be plastered or not. They shall be guarded by either a double collar of metal with air space or by at least four (4) inches of brick between pipe and wood.

SECTION 7. Every structure and part thereof; and appurtenances thereto within the City of Berlin shall be so constructed and maintained in such repair as not to be dangerous, and the owners of any premises within the said city upon notice from the inspector that such premises are dangerous shall forthwith remedy the cause of danger by removal or repair.

SECTION 8. No shanties or cheap buildings will be allowed to be built or moved on to any lot in any of the principal streets of the City of Berlin without a permit from the inspector.

SECTION 9. No chimney shall be started or built upon any floor or beam, and in no case where the breast of a chimney shall

project more than four (4) inches shall it be commenced in any wall, but shall be started from the foundation. No chimney in buildings already erected or hereafter to be built shall be cut off below or in part and supported by wood but shall be wholly supported by stone, brick or iron.

SECTION 10. The city council may by ordinance at any time make such requirements in addition to these contained in this act as they may deem expedient in relation to the erection and alteration of buildings.

SECTION 11. Any person who shall build or alter any building or other structure or part thereof in violation of any provisions of this act or who shall after twenty-four hours' notice from the inspector maintain or use any such building or other structure or part thereof so built or altered as shall violate any provisions of any of this act, shall be punished by a fine not exceeding one hundred dollars to be paid into the treasury of the City of Berlin.

Passed August 2, 1898.

Approved,

H. F. MARSTON, Mayor.

WM. W. BURLINGAME, City Clerk.

---

AN ORDER to build a new sewer on the east side of the Androscoggin river.

*Ordered*, That the City Engineer immediately lay out a sewer on the east side of the Androscoggin river.

It is further ordered that when he shall have completed the laying out of said sewer that the Sewer Commissioner commence at once on the building of same.

Approved,

JOHN B. NOVES, Mayor.

Attest :

WM. W. BURLINGAME, City Clerk.

---

AN ORDER to lay out and build an extension of Church street.

*Ordered*, That the City Engineer immediately lay out an extension of Church street.

It is further ordered that when he shall have completed the laying out of said street that the Street Commissioner shall at once commence the building of the same.

Approved,

JOHN B. NOVES, Mayor.

Attest :

WM. W. BURLINGAME, City Clerk.

AN ORDER to build a new street at Berlin Mills.

*Ordered*, That the City Engineer immediately lay out a new street at Berlin Mills, running from in front of the Berlin Mills Co's store by the residence of J. B. Carruthers and H. B. Frost to Maple street.

It is further ordered that when the City Engineer shall have completed the laying out of said street that the Street Commissioner shall at once commence the building of same.

Approved,

JOHN B. NOVES, Mayor.

Attest :

WM. W. BURLINGAME, City Clerk.

# Rules and Regulations.

---

SECTION 1. The Mayor shall take the chair precisely at the hour appointed for the meeting and call the members to order. If a quorum be present, he shall cause the journal of the previous meeting to be read, and if no objection be made, it shall stand approved.

SECTION 2. The Mayor shall preserve due order and decorum; he may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal to the Council.

SECTION 3. The Mayor shall rise to put a question, but may state or read it sitting.

SECTION 4. In the absence of the Mayor, the City Clerk shall call for the nomination of a chairman pro tem, who being elected, shall preside until the Mayor arrives, or during that meeting and no longer.

SECTION 5. The order of business shall be as follows:

1. Reading the journal of the previous meeting.
2. Communications from the Mayor.
3. Presentation of petitions, and disposal thereof by reference to committee or otherwise.
4. Reports of committees.
5. Such nominations, appointments, and elections as may be in order.
6. The orders of the day—meaning by the orders of day, the unfinished business of the previous meeting.
7. New business, which may be introduced by any member.

SECTION 6. The Mayor shall consider a motion to adjourn as always in order, (except an immediate repetition); the time of the next meeting having been agreed upon and the Council having had proper notice, the motion to adjourn shall be decided without debate.

SECTION 7. The previous question shall be put in the following form: "Shall the main question be now put?" and all amendments or further debates of the main question shall be suspended until the previous question be decided.

SECTION 8. Every member, when about to speak, shall rise in his place and respectfully address the presiding officer; shall confine himself to the question under debate and avoid personalities. No member shall be interrupted while speaking, but by a call to order, or, for the correction of a mistake; there shall be no conversation among the members while a paper is being read, or a question stated from the chair.

SECTION 9. No member in debate shall mention another member by his name, but may describe him by the ward he represents or such other designation as may be intelligible and respectful.

SECTION 10. Every member present when the question is stated, when he is not excluded by interest, shall give his vote; unless the City Council for special reasons excuse him. Application to be so excused shall be made before the calling of the yeas and nays, accompanied by a brief statement of the reasons, and shall be decided without debate.

SECTION 11. Any member may call for a division when the subject will admit of it; and the yeas and nays shall be taken when demanded by any member of the council.

SECTION 12. When a motion is made and seconded it shall be considered by the council and not otherwise.

SECTION 13. When any question is under debate, no motion shall be received, but first, to adjourn; second, to lay on the table; third, for the previous question; fourth, to postpone to a certain day; fifth, to commit; and sixth, to amend; which several motions shall have precedence in the order in which they are arranged. Motions to adjourn, to lay on the table, and take from the table shall be decided without debate.

SECTION 14. No vote shall be reconsidered unless the motion

for reconsideration shall be made by a member who voted with the majority, or unless notice be given at the meeting at which the vote passed, in which case the motion shall be made at the next regular meeting succeeding; only one motion for the reconsideration of any vote shall be permitted.

SECTION 15. Every motion shall be reduced to writing if the chair shall so direct.

SECTION 16. The council may resolve itself into a committee of the whole at any time upon the motion of a member made for that purpose; and in forming a committee of the whole the Mayor may leave the chair, and a chairman to preside in committee of a whole shall be appointed by him. When the committee of the whole have gone through with the subject referred to them, they shall rise and the chairman shall report their proceedings to the council.

SECTION 17. Standing committees shall be appointed on Finance, Accounts and Claims, Public Instruction, Roads and Bridges, Parks and Commons, Fire Department, Lighting Streets, Elections and Returns, Engrossed Ordinances Police and Electric Lights, Sewers and Water, and Salaries.

SECTION 18. No committee shall sit during a session of the City Council without special leave.

SECTION 19. No report shall be received from any committee unless agreed to in committee actually assembled, and all reports shall be made in writing.

SECTION 20. Every committee to whom any subject is referred shall report at the next regular meeting or ask for further time.

SECTION 21. Every ordinance, order or resolution, shall have three several readings before it shall be considered as having received the final action of the City Council. A first reading for information, and if not rejected or otherwise disposed of; the question shall be, "Shall it be read a second time?" and when read a second time shall be referred to a committee by the chair, unless

otherwise ordered by the council; third reading, when reported by the committee, and passage to be engrossed.

SECTION 22. No ordinance, order or resolution shall be amended after its second reading.

SECTION 23. No ordinance, order or resolution imposing penalties, or authorizing the expenditure of money, shall have more than two readings on the same day.

SECTION 24. The foregoing rules and order of business shall be observed in all cases, unless suspended by a vote of two-thirds of the members present for a specific purpose.

## Department Reports.

## REPORT OF THE CITY CLERK.

---

BERLIN, N. H. February 15, 1900.

*To the Mayor and City Council:*

The following is an account of the money collected for the City of Berlin by me for the year ending February 15, 1900.

### DOG LICENSES.

Total.....	\$10,066.34	\$10,066.34
Balance due the city.....		\$ 1,546.27
Interest collected \$233.98.		

Respectfully submitted,

JOSEPH E. GONYA, Collector.

# SUPERINTENDENT OF STREETS.

---

## ANNUAL REPORT.

---

BERLIN, N. H. February 15, 1900.

*To His Honor the Mayor and City Council of the City of  
Berlin:*

GENTLEMEN:—The demand made upon the time and attention of the executive officer of the highway department are so numerous and the duties devolving upon him are of a such varied character, that it should be remembered, that every demand however insignificant it may appear, requires not only, a certain amount of care and consideration but entails a proportionate demand upon the public funds.

Preliminary to a general summary of the year's work, permit me to present a financial statement of the several branches of public service included in the highway department: 750 loads of cinders were used in the construction and repairs of sidewalks and streets during the year, the larger part of this material being furnished by the Burgess Sulphite Fibre Company, 540 loads being placed on Main street at Berlin Mills during the month of April. The working force of the department was engaged in breaking out roads and opening out water courses on Cate's Hill, also on the principal roads about the city. The work done on Cate's Hill amounting to \$58.75 and on principal streets amounting to \$207.40.

Preparations were made for the crusher at the narrows. Also moving it from Murray's at Berlin Mills, May 27, 1899, the crusher was started, running 25 days producing 1,875 loads being put on our public streets, Main street, Glen avenue to Post Office Square, also on Green and Jolbert streets. The crusher was then shut down. It was started on October 1st, running 2 days, producing 150 loads which were placed on First and Second streets at Berlin Mills and from Brown school to Convent. During the month of July a small

force was kept on our streets grading and repairing culverts and washouts on Hillside avenue and on principal streets in the city. The road machine was started in the spring on May 9, 1899, commencing at our city line running on both sides of Androscoggin river also on Cate's Hill, Jericho road and High street. During the month of August, we hauled gravel on High street and Hillside avenue and on streets in the city. We also repaired new culverts on Milan road and East Side of river. In the month of September we filled in sidewalks at Post Office square and on Mechanic street and cleaning up city. During the month of October, repaired Dead river bridge on Main and Hillside avenue, repaired culverts placed crushed rocks on Main street and gravel on East side of the river. 196 feet of 10 inch Salt Glaze Pipe for watercourses were placed from Dustin's to H. Smith's. 55 culverts were built and repaired, 1 dozen grates was placed on High street near Mr. Kelley's, also one on Western avenue near D. Walsh's house. A protecting fence was built 92 feet long on a dangerous place on Western avenue costing \$12.18.

During November sand was hauled from J. Morin's to city building and cleaning up city, repairing Emery street and put in 30 feet of Salt Glaze Pipe near St. Kieran's church, also 28 feet of same pipe 5 inches for water courses near Mr. Lee's. In December gravel was hauled on Spruce street, also doing general work about the city. January, breaking out roads on Cate's Hill, plowing streets and sidewalks, also sanding sidewalks, opening water courses. From February 1 to the 15. We had a large fall of snow, which had to be handled, also breaking out roads about the city. A stone wall was built near J. Goebel's store 90 feet long and from 2 to 4 feet high as a protecting wall. A small force was placed on our iron bridges on Mason street clearing and scraping them preparing for paint.

In closing permit me to state that if individual demands have not in all cases received immediate attention, it has not been because the inclination of the Superintendent of Streets was in any manner adverse to the projects or requirements of the claimant, but that antecedant interests claimed attention or because the development of the work in hand would permit of no delay.

For the uniform courtesy and consideration at all times shown me by His Honor the Mayor and the members of the City Council

and Committee on Streets, permit me to express my grateful acknowledgments.

Respectfully submitted,

J. COFFEY, Street Commissioner.

#### INVENTORY OF PROPERTY.

## FIRE DEPARTMENT.

---

### REPORT OF CHIEF ENGINEER.

---

BERLIN, N. H., February 15, 1900.

*To the Mayor and City Council:*

In accordance with the law governing this department I have the honor herewith to submit my annual report for the year ending February 15, 1900, giving in detail the amount of insurance paid and the amount of loss.

There has been during the year twenty-two alarms given, three false and nine needless.

May 1, James Maguire dwelling. Loss on building \$317.00; insurance \$317.00

May 9, J. L. Cote stores and boarding house. Loss on building \$624.00; insurance paid \$624.00. Loss on contents \$2017.00; insurance \$2017.00.

August 9, M. Shannahan steam laundry. Loss on contents \$2.15; insurance paid \$2.15.

August 20, William Dupont dwelling. Loss on building \$25.00; insurance paid \$25.00.

September 6, S. Moran tenement. Loss on building \$5.00; insurance paid \$5.00.

September 14, Catholic parsonage. Loss on building \$20.00; insurance paid \$20.00.

October 3, E. D. Thurston, stores and boarding house. Building total loss, insurance \$2,000.00; insurance paid \$2,000.00. Loss on contents partial, insurance \$2,000.00; insurance paid \$1,185.00,

October 3, Jane Lefebvre dwelling. Loss on building \$70.00; insurance paid \$70.00.

December 26, C. R. Bartlett tenement. Loss on building \$296.00; insurance paid \$296.00. Loss on contents \$110.00; insurance paid \$110.00.

January 10, B. Reed dwelling. Loss on building \$54.50; insurance paid \$54.50. Loss on contents \$125.00; insurance paid \$125.00.

Total losses.....\$6,720.65.

Total insurance paid..... 6,720.65.

This department consists of forty-seven men organized as follows:

GEORGE A. PORTER, Chief Engineer.

GEORGE E. KENT, First Assistant Engineer.

FRED R. OLESON, Second Assistant Engineer.

JOHN Q. FARRINGTON, Captain Hose 1.

OLAF OLESON, Captain Hose 2.

J. M. RECORD, Captain Hose 3.

W. L. EVANS, Captain H. and L. 1.

There has been very few changes in the members of this department during the year. New apparatus has been purchased, which was very much needed, and one alarm box, opposite B. M. Co.'s store, has been added to the system. All the apparatus has been furnished with the John E. Hobbs patent detachable runners, which is a great improvement to the department.

I would respectfully recommend that the city purchase 1000 feet of 2 1-2 inch rubber lined hose, also that a small appropriation be made to repair hose house No. 2.

The cost of the Fire Department for the year ending February 15, 1900, will be found in the report of the city clerk.

In behalf of the Board of Engineers I will take this opportunity to extend our sincere thanks to all the members of the Fire Department for the promptness with which they have discharged their duties during the past year. We would also thank the members of

the City Government for their kind assistance rendered this department during the past year.

Respetfully submitted,

GEORGE A. PORTER, Chief Engineer.

### INVENTORY OF PROPERTY.

3 Modern hose wagons.....	\$ 850.00
1 Ladder truck.....	600.00
1 Life saving net.....	50.00
3000 Feet 2 1-2 inch lined rubber hose.....	1 400.00
3 Perfection nozzles and holders.....	105.00
4 Underwriters nozzles.....	40.00
3 Double spray nozzles.....	60.00
3 Brass branches.....	25.00
8 Fire axes.....	20.00
4 Set Berry collars and hames with harnesses.....	180.00
44 Rubber coats.....	158.00
47 Firemen's badges.....	53.00
40 Hose spanners.....	17.00
6 Perkin's life belts.....	42.00
15 Hose straps.....	5.00
36 Fire hats.....	70.00
4 Hydrant wrenches.....	5.00
Electric fire alarm.....	1,150.00
6 Set hose couplings.....	16.00
1 Hose coupling expander.....	10.00
4 Berry patent harness hangers and snaps.....	44.00
1 Miller smoke protector.....	5.00
4 Set detachable runners.....	260.00
	<hr/>
	\$5,164.00

## SEWER DEPARTMENT.

---

### REPORT OF SEWER COMMISSIONER.

---

BERLIN, N. H. February 15, 1900.

*To The City Council:*

I have the honor to submit herewith the annual report as Sewer Commissioner, and will touch briefly upon the work done during past year.

We built a sewer 609 feet long on the Hights Back of High School Building. One on West Side to J. Collins using 347 feet of 5 inch Sewer pipe. Also one on East Side of river from Androscoggin river to Marston Sewer using 1,524 feet of Sewer Pipe. This Sewer was all ledge, which had to be blasted and which progressed very slowly. A small branch sewer was laid on High street to F. Lord's using 58 feet of 4 inch pipe. Also a branch 430 feet of eight inch pipe on First avenue. One near Cole's on west side 76 feet 6 in. pipe. One near Mr. Eastman's, west side, 64 ft. 6 in. pipe.

A sewer connecting onto main sewer: On First Avenue, back of L. Roderick's running up to Jerico school, using 532 feet of sewer pipe; 30 feet of 8 inch pipe of this was used on Madigan street. 200 ft. of sewer pipe was used in miscellaneous places for small connections, 84 connections being made on new and old sewers. All these new sewers were laid in a proper way, being laid deep with large sized pipe, covered with gravel and the waste of the street. The frost cannot injure them in any way, and will not have to be troubled for years to come, also some of the old sewers were recoved on First avenue.

In conclusion I wish to return my thanks to His Honor, the Mayor, to the City Council and to the Committee of Sewers, for

their consideration in regards to matters relating to the Sewer Department.

Respectfully submitted,

J. COFFEY, Sewer Commissioner.

#### INVENTORY OF THE CITY PROPERTY.

## ENGINEER'S DEPARTMENT.

---

### REPORT OF CITY ENGINEER.

---

*To his Honor, the Mayor, and the City Council;*

GENTLEMEN:—I herewith submit the report of the work done in the Engineer's Department for the past year.

#### **Sewers.**

On the east side of the river we have laid out and there has been built a system, which with connections that were made with existing sewers, amply accommodates the residents of that section. It consists of 1060 feet of 10 in. pipe; 238 feet of 8 inch pipe; 76 feet of 6 inch pipe and 150 feet of 4 inch pipe.

On the west side of the G. T. R. R., we have completed connections near A. H. Eastman's and A. K. Cole's, besides running a sewer past the Letourneau place, which amply supplies that section. Another sewer was laid from the present sewer in rear of Louis Roderick's residence to the Sessions school, with one or two branches. They consist of 598 feet of 6 inch pipe, 460 feet of 8 inch pipe and 50 feet of 5 inch pipe.

On the Heights, back of the High School building, sewers have been laid out, consisting of 130 feet of 6 inch pipe, 191 feet of 5 inch pipe and 288 feet of 4 inch pipe.

From High street to John Collins' residence, 347 feet of 5 inch sewers have been laid, which accomodates a number of houses,

From High street to rear of residence of Frank Lord, 58 feet of 4 inch sewer has been laid out.

### Surface Drains.

No surface drains have been laid out the past year.

### Sidewalks.

Grades and lines have been given for curbing on Mechanic street in front of Buckley's and Stahl's; in Post Office square, in front H. L. Steinfeld's; on High street in front of Dr. H. W. Johnson's; on Pleasant and Church streets, in front of Dr. A. Lavallee's. Have also assisted the street commissioner in surveying the concrete laid.

### New Streets.

Church street laid out to Portland street, 300 feet.  
Pine street laid out, 930 feet.  
Eight street, extension of 193 feet 6 inches.  
Sweeden street, 1025 feet.  
Oak street, extension to Willard street, 165 feet 6 inches.  
Brown street from Main to Maple street.  
Berlin Mills, 325 feet.  
Wight street from West Milan road near J. H. Wight's to G. T. R. R., 235 feet.

### Miscellaneous.

A record of Highway Records has been compiled, also have assisted the Berlin Street Railway in defining the bounds of Main street.

### Street Lines and Grades.

The lines of Pleasant street have been re-established, although certain abutments claim to be damaged thereby, and the matter is now in the hands of the Council. The demand for correct lines and grades on streets has increased the past year, as in some cases,

the lines cannot be given, and no grades given upon the authority of the city. The question arises as to whether or not it is time to appropriate a sum of money for systematic work in this line, and would ask your consideration upon this important question.

### General Survey.

No work in this direction has been done, owing to lack of funds, and it is respectfully recommended that an allowance be made for the work.

We have no reliable map of Berlin, and a demand for one is growing fast.

The numbering of the properties in Berlin was begun last year by private parties and abandoned on account of reliable information in this direction.

The post office department at Washington has suggested to me the need of a numbered map in view of the probability of a free delivery of mail in this city, also the city assessors would find their work more easy and less liable to error with a map to guide them.

Respectfully,

CHARLES B. GIFFORD, Civil Engineer,

# POLICE DEPARTMENT.

## REPORT OF THE CITY MARSHAL.

BERLIN. N. H., February 15, 1900.

*To The Mayor and City Council:*

GENTLEMEN:—I have the honor to submit for your consideration the third annual report of the city of Berlin Police Department commencing February 16th, 1899, and ending February 15th, 1900.

### Arrests and Causes.

Arrests males,.....	426
females,.....	8
Whole number of arrests,.....	434
Assault,.....	32
Adultery,.....	1
Attempted rape,.....	1
Abusing children,.....	1
Attempting fraud and forgery,....	1
Breaking and entering,.....	4
Bastardy,.....	2
Drunkenness,.....	192
Disorderly conduct,.....	20
Fast riding,.....	1
Fornication,.....	2
Highway robbery,.....	1
Keeping spirituous liquors for sale,.....	145
Keeping a disorderly house,.....	4
Keeping unlicensed dogs,.....	3
Keeping unlicensed pool table,.....	1
Larcency,.....	21

Obtaining money under false pretense,.....	1
Overdriving a horse,.....	1
Whole number of persons furnished lodging,.....	251
Amount of property reported lost,.....	\$480.00
Amount of property recovered,.....	311.00
Complaints investigated,.....	123
Disturbances quelled without arrest,.....	102
Fast driving stopped,.....	19
Lost children restored to parents,.....	3
Stores found not secured,.....	4
Test of fire alarms,.....	284
Nuisances reported to Board of Health,.....	12

### Organization.

The organization of the Department at present is as follows: City Marshall, Assistant Marshall, three Patrolmen and twenty Special Reserve Officers.

By reference to the detailed reports of arrests it will be seen that no crimes of a very serious nature have been committed. The expense of the Police Department during the last year has been somewhat less than the proceeding year. owing to the fact that we have done the work with one less Patrolman. I wish to extend my thanks to Mayor Noyes and members of the City Council for their courteous treatment and to members of the Police Department for the efficient manner in which they have discharged their several duties. I would acknowledge my obligations to City Clerk Wm. W. Burligame and to Judge George F. Rich for their advice and assistance.

Respectfully submitted,

GEORGE S. WILSON, City Marshal.

## CITY SOLICITOR'S REPORT.

---

BERLIN, N. H., February 13, 1900.

*To the City Council of the City of Berlin:*

In presenting the annual report of the City Solicitor it appears to me there is little to say. There are but two suits now pending against the City in the Supreme Court. One is an action brought by Daniel J. Weare for injuries which he claims to have received from slipping on a defective sidewalk; the other is an action brought by Jesse Libby of Gorham for a defective laying out of a highway across land of the petitioner, as he claims.

There is also a notice before the Council of injuries sustained to Mrs. J. B. Carruthers in Berlin Mills Village in consequence of falling on a slippery sidewalk.

Heretofore, where these cases could be settled for a reasonable sum I have advised doing so and may continue to do so, but when the proper time comes, I think it will be good judgement to find out whether the law relating to injuries sustained on highways means what it says or something different.

There are several important matters, some of which have been referred to this office, which should receive immediate attention. Among them is the placing of gates at the various railroad crossings in the city, the widening and straightening of the underpass on Green street, the laying out of a highway across the Boston & Maine R. R., on the east side of the river, where no public highway exists, and the widening and straightening out of Pleasant street.

Upon the whole I think the City should congratulate itself upon the record made by this office since the formation of the city, the fact that no large sum has been paid for damages and the general healthy financial condition.

I desire to thank the Marshall and his officers for all they have

done to make and preserve the condition of affairs I have above set forth and refer to the report of the City Marshall for a more detailed account of what this department has done.

Respectfully submitted,

WM. H. PAINE, City Solicitor.

## REPORT OF POLICE COURT.

---

BERLIN, N. H., February 15, 1900.

*To the Mayor and City Council:*

GENTLEMEN:--Herewith I beg to submit a report of the Police Court of the City of Berlin for the year ending February 15, 1900.

Number of Civil Cases entered 185; number of complaints entered, 310, for the following offenses, viz:

Adultery.....	2
Assault.....	28
Assault with intent to kill.....	1
Brawl and tumult.....	4
Breaking and entering and larceny .....	3
Cheating by false pretenses.....	2
Common drunkard.....	1
Disorderly conduct.....	2
Drunkeness.....	86
Fornication.....	2
Gaining possession without lawful authority.....	1
Idle person.....	1
Keeping disorderly house.....	3
Keeping unlicensed dog.....	2
Larceny.....	11
Maintaining common nuisance.....	1
Over-driving horse.....	1
Running billiard table without license.....	1
Throwing stones on street.....	1
To fine sureties of the peace.....	1
Violation of the liquor law.....	156
Total.....	310

These complaints were disposed of as follows:

Not prosecuted to judgement.....	2
----------------------------------	---

Tried and acquitted.....	9
Held to answer to Supreme Court.....	28
Paid fines.....	251
Committed to jail, for non-payment of fine.....	5
Appealed to Supreme Court .....	3
Released on promise of good behavior.....	11
Committed to jail in default of bail.....	8
Committed to House of Correction for non-payment of fine..	15
Sentenced to House of Correction .....	1
Sentence suspended while respondent remains out of city....	9

---

Amount of fines and costs received by Justice..... \$8,375.92  
 Amount deposited by Justice with City Treasurer..... 8,375.92

Respectfully submitted,

GEORGE F. RICH, Justice and Clerk.

## DEPARTMENT OF POOR.

---

### REPORT OF OVERSEER.

---

BERLIN, N. H. February 15, 1900.

*To His Honor the Mayor and City Council of the City of  
Berlin:*

GENTLEMEN:—At the close of the fiscal year ending February 15th, the city pauper bills aggregate the sum of \$1,108.53. The amount appropriated for this purpose was \$1,300. Showing that although our City has grown considerably, the pauper bills have been kept down to a reasonable amount. The conditions are about the same as in 1898 and 1899. The most expensive case is that of Mrs. M. G. Oleson and family (widow). I can see no alternative than for the city to continue aid, in the same way.

Mrs. Oleson is confined to her bed, continually, and has three small children who must be clothed, fed and schooled. She is unable to do any work and we keep a girl for her at \$2.00 per week. Furnish the rent and give her \$4.00 per week with which she furnishes the family with provisions, clothes the children etc. I make the above explanation of Mrs. Oleson's case, for the benefit of those who may criticise, not knowing the particulars, and who simply look at figures.

As my report in County pauper cases, is made to the Commissioners, I do not consider it necessary or of any material importance in this report, more than to say that it is very satisfactory. I am taking accident cases, injuries, etc, to West Stewartstown and using the County Farm as a hospital, which is a great saving in expense. The best of care and medical aid is furnished then, and the institution is a credit to the County and I believe is the best in the state.

For the year coming I have no particular recommendation to

make. I believe with careful management, the bills can be kept where they are at present.

Of course more money could be expended in relieving the burdens of the poor, but I have always considered the office as one of business, rather than that of philanthropy and I believe no one within our City has suffered.

I take this opportunity to thank the members of the City Government who have assisted me, also many others who have shown real interest in our unfortunates.

Respectfully submitted,

A. B. FORBUSH, Overseer of the Poor.

## REPORT OF CITY PHYSICIAN.

---

*To The City Council:*

The ordinance regulating the duties of the City Physician gives him no initiative whatsoever in the affairs of public health. He has to furnish medical attendance upon patients directed to him by the overseer of the city poor, and also attend contagious cases quarantined by the health authorities only when such cases are unable to provide for themselves AND HAVE ASKED ASSISTANCE. Some persons have the impression that the City Physician is obliged to treat all the contagious diseases free of charge, which is a misinterpretation of the ordinance.

The number of quarantined families assisted by the Board of Health has been limited this year.

I have, in my official capacity, attended cases as follows:

Diphtheria	-	-	-	-	-	-	-	-	-	15
Scarlet fever	-	-	-	-	-	-	-	-	-	9
Miscellaneous	-	-	-	-	-	-	-	-	-	8

In this latter class are some chronic cases which require an almost continuous attendance.

I have also vaccinated, by the order of the Board of Health, about 200 pupils.

Respectfully submitted,

A. LAVALLEE, City Physician.

## SANITARY DEPARTMENT.

### REPORT OF BOARD OF HEALTH.

BERLIN, N. H. February 15, 1900.

*To His Honor the Mayor and City Council:*

The Board of Health submits the following report for year ending February 15th, 1900.

Appropriation,.....	\$400.00
Cost of caring for dumping station from April 21, 1899 to January 24, 1900,.....	\$60.99
Cost of labor carding and fumigating houses for year,.....	64.00
Cost of caring for sick under quarantine,.....	16.00
Cost of watchman at houses under quarantine,.....	35.00
Cost of printing at W. A. Boothby's,.....	2.50
Cost of supplies for 1 family under quarantine, .....	9.70
Cost of medicine used for vaccination and sulphur used for fumigating (bill of C. Brook's),.....	11.60
James Moffet Secretary of Board of Health, expense to Concord,.....	16.50
Cost of burying dead animals,.....	3.50
C. R. Denning bill for fumigating, sulphur and antitoxin,	25.43
James Moffet, salary,.....	50.00
Frank Brown, salary,.....	50.00
John Oswell, salary,.....	50.00
James Moffet stamps and labor as Secretary of Board of Health for year,.....	10.00
<b>Total,.....</b>	<b>\$405.22</b>
Number of houses that have been under quarantine,.....	31
“ “ cases of diphtheria reported to Board of Health,.....	10
Number of cases of scarlet fever,.....	20

Number of cases of membraenous croup,..... 3

For some special remarks and recommendation we invite your attention to the following subjects.

From investigations made during the spring and summer we found that some of the parties who were notified the year previous to connect their houses with the City Sewer as they were within one hundred feet of same, did not comply with the notices. So the Board of Health were obliged to force them to connect. The total number of houses forced to connect with the City Sewers is about fifty five. The Board would have succeeded in getting quite a number more to connect, but they found it impossible to get the City Council and sewer commissioner to commence work on the sewers until the ground froze up and we could not get the parties to connect this fall.

We also wish to call your attention to sewers put in by recommendation of Board of Health. One running up behind the the High School building taking in about 9 houses, branch from High Street to Collins St., taking in 3 houses, short pieces running from Stearns street to West Side School house and one short piece running from A. K. Cole's house connecting with sewer on Western avenue.

We would recommend that the city push the work in the sewer department as the health of the city largely depends on good sewerage, and that the sewers are put in early in the summer so it will give the parties, wanting to, a chance to get the houses connected before the ground freezes up.

We would recommend that the City Council appoint a milk and meat inspector, as we claim it for the interest of the public health.

We would also like to recommend that the City Clerk should be instructed to keep a record of the cause of all death, so in case the Board of Health should receive an application for disinterment, they could guide themselves accordingly.

Respectfully submitted,  
 JAMES MOFFETT,  
 FRANK BROWN,  
 JOHN L. OSWELL, } Board of Health.

FOURTEENTH ANNUAL REPORT

—OF THE—

BOARD OF EDUCATION

—OF THE—

CITY OF BERLIN, N. H.,

FOR FISCAL YEAR ENDING FEBRUARY 15, 1900.

**Organization.**

COLUMBUS P. KIMBALL, CHAIRMAN, Term expires March 1900  
HENRY W. JOHNSON, M. D., . . . Term expires March 1901  
JOSEPH J. COBB, M. D., . . . Term expires March 1902

## REPORT OF BOARD OF EDUCATION.

---

*To The Mayor and Council of the City of Berlin:*

GENTLEMEN:—The Board of Education have the honor to submit to you their fourteenth annual report.

The schools have been in session 37 weeks from February 15, 1899 to February 15, 1900. The statistics appended to this report present a general exhibit of the number of buildings and of rooms, of the enrolment and attendance of pupils, of the expenditures the past year, and of the comparative cost for the last four years.

### Buildings.

Number of school houses, February 1, 1900,.....	6
“ “ occupied rooms, “ 1, 1900,.....	18
“ “ “ “ “ 1, 1900,.....	1
“ “ sittings, February 1, 1900,.....	872

The total value of buildings, land and furniture is estimated at present at \$32,775.00. A detailed statement of the value of the school property will be found at the end of this report.

We are pleased to note that the sanitary condition of the Sessions building has been improved somewhat by placing flush closets in it. The cramped arrangements of this building, and its extremely economical construction made this work somewhat more expensive than it would have been in one differently planned. The roof has been repaired, but its construction is such that similar repairs will be called for again within two years.

The heating apparatus, never adequate to the demands made upon it, has at last succumbed to the continual forcing of the fire, and is burned out beyond repair. An entirely new system will be

required for next year. We shall refer to the means of meeting this condition in speaking of the high school.

Last June, it was seen that with the beginning of the next year in September, a First grade would necessarily be placed in the Marston building. This necessitated new furniture for the unfurnished room, and it was put in in August. Every room in town at present has its quota of furniture. The only unoccupied rooms are one in the Mason Street building and one on Cates Hill. The former will probably be occupied next year. The conditions at the Brown school must be met in some way. This building consists of one large room, seating about 52 pupils, and three very small rooms, into which seats are so crowded that it is impracticable for pupils or teacher to pass around the room. One of these small rooms, by dint of crowding, seats 30 pupils, while the one below it seats 40, with two pupils at each desk. There is no hall, but a winding stairway runs from a small entry on the first floor to a narrow passage on the second floor. There are at present 182 pupils in this building, and the inconvenience of managing so many in so small a space must be apparent to any one who has had any experience with school children. We consider this an expensive building as the two small rooms together would make one good room for one teacher, instead of requiring two teachers as at present. The building answered the purpose perhaps at the time it was built, but no thought of increase in number of pupils seems to have been entertained. A glance at the comparative school attendance for the past five years will show the increase during that time. Next September this house will be overcrowded, and accommodation for a surplus must be found outside of it.

Another important consideration is the ventilation of our school rooms. Of the six buildings, four may be said to be well heated, and two of these have a means of admitting a limited supply of pure heated air. These are the Mason street building and the Marston building. The other two, the High School building and the Brown building have no method except by opening doors and windows, a very inadequate and unsatisfactory manner of keeping the air in healthful condition. The same is true of the Sessions building which is not well heated. In none of the buildings is there sufficient provision for the removal of impure air. In other words, these buildings are a constant menace to the health of the children confined in them. It would be interesting and instructive to go on and discuss what is required in a healthful school building, but there is hardly room for the discussion in this report, although

we think this the proper place for it. It is a subject which will force itself upon our attention sooner or later, and for which provision must be made. It is our opinion that if our school rooms were properly ventilated according to modern methods, there would be fewer cases of contagious disease in the city, and a greater degree of public health would prevail. Each room is supplied with a thermometer, and teachers and janitors are instructed to maintain a nearly constant temperature of sixty-eight degrees. In Europe, the standard is sixty-four degrees. An eminent authority on hygiene speaks as follows. "One thing is very certain, and that is, THAT THE DEGREE OF HEAT SHOULD NEVER BE REGULATED BY THE TEACHERS, AMONG WHOM SO MANY IDIOSYNCRACIES EXIST, NOR BY THE TOLERATION OF IT WHICH LONG HABITUATION ALWAYS PRODUCES. If at this temperature (sixty-eight degrees) there is a feeling of chill, it is because the circulation of the blood is not active enough, the pupils being confined too long at their tasks without exercise. You cannot make them warm by raising the temperature, or if you succeed in so doing, it will be at the expense of headaches and debility. Trust then to the thermometer rather than to your own feelings, and remember that the time to correct bad habits is at the beginning of the year, when pupils return to school invigorated by their vacation. For if the children, as well as the teacher become accustomed to an elevated temperature, a preference for it is generated which is very difficult to eradicate."

When one considers how many of our school population come from crowded tenement houses, where conveniences for maintaining a proper degree of sanitation are extremely limited (in the majority of cases there are no conveniences at all) the necessity for ventilation in our school rooms forces itself upon us in a somewhat unpleasant manner.

Both the High school and the Marston building need a coat of paint, especially the latter, which has never received but one coat, put on when the building was finished. The grounds about the Marston building are as yet in an unfinished condition. It was the original plan to put in a terrace along Willard street, half way between it and the building. This should be done the coming summer. An estimate of what will be required for these repairs and alteration will be found elsewhere in this report.

The increased efficiency of the high school is making itself prominent owing to lack of room. Next September, a class of over 20 pupils will enter the school, and the small recitation room is not

large enough to meet the increasing demands made upon it from year to year. Further, instruction in the important branches of natural science, physics and chemistry, for the past six years, has necessarily been of the most superficial and theoretical character. We referred to this subject in our last report as the weakest part of our high school instruction. This is because there have been no facilities for experimental work by the pupils. Now we have recently referred to the fact that the Brown school is crowded, and that next fall, thirty or forty pupils who belong in that building, will find absolutely no accommodation in it for them. What will be done with them? It is out of the question to add a wing to any part of this building. But your committee, after due consideration of the matter, have concluded that by building an addition on the rear of the high school building, both problems, viz:—that of providing for the surplus at the upper village, and also for the high school proper, will be solved in a way both practical and economical. This addition can be 30 feet wide and extend 35 feet in the rear. The lower floor can accommodate the fifth grade from Berlin Mills, and the upper be devoted to the needs of the high school, and include two recitation rooms, one of which can be fitted for science instruction. This addition will necessitate a new boiler. The one now in use can be put in the Sessions school (a new heating apparatus is demanded there, as the present furnace is burned out) and a new and larger boiler placed in the high school. A prominent builder has informed us that the cost of this addition will be about \$2,000 beside heating, which will be \$1,000 more.

This is a matter requiring immediate attention. If it is postponed for a year, we shall be put to the expense of transporting an entire school from the Mills to the lower village, provided accommodation can be found there for them, which is highly improbable. In that case, we are at a loss to know what can be done without seriously crippling the work. But the the problem of accommodations always arises. So long as four or five hundred boys and girls are not registered in any school in the city, and more or less of them are liable at any time to ask admission to our schools, so long must lack of room constantly threaten to involve us in serious embarrassment and expense.

### Reading.

Instruction in reading in our schools has three distinct objects in view.—First, to put the pupil in possession of a sufficiently large vocabulary that he may grasp the meaning of a printed passage

easily and rapidly, thus fitting him for silent reading, which is nine-tenths of the reading that he will do after leaving school. Second, to develop a taste for good reading, and to cultivate the reading habit. Third, to train him to express the printed thought orally, in a manner easily intelligible to his hearers; and this is the remaining tenth of his reading in after life.

To acquire the ability to read is no slight task. It is believed to be the chief work of the early years of school life. No pupil can enter upon the study of arithmetic, geography, history, or grammar, without first having learned to read with some degree of rapidity and ease. Because of this the burden of the work, the largest proportion of time, of the first four or five years should be given to the teaching of reading. Teachers are united in agreeing that instruction in reading should begin as soon as the child enters school. Success in other branches demands this. Second, it is believed that, in the case of most children, the ability to read must be acquired in the schools. The homes in which this training is given are so few, comparatively, that they may be ignored in the consideration of the instruction of the masses. Third, most of the best literature can be read by pupils between the ages of six and sixteen. Some authority whom we cannot name now, says that a pupil who does not acquire a taste for good reading before he is fifteen, seldom or never has a taste for it afterward. We recall another authority who says that the boy who doesn't care to read Shakespeare before he is fifteen, will never care for it.

Again, there is a general agreement amongst teachers that the ability to read can come only from much reading. By this we mean the ability to "read at sight," which is the kind of reading we all do after leaving school. When the writer was in school twenty years ago, the reading matter was limited to a series of five or six books. These were read, most of them being used two years in succession, until we could repeat pages from them. There is no doubt but that we read them well, but it was not sight reading. Under these conditions, reading is an exercise of memory and of imitation—a process which dwarfs rather than expands the mind. We were taught the mechanical part of reading, and then turned adrift to read dime novels, "penny-dreadfuls," or anything which might come our way. This method, which "teaches a child to read without teaching him what to read," says Charles Dudley Warner, "is putting a dangerous weapon in his hands." Pres. G. Stanley Hall said recently that "the school has no right to teach how to read without doing much more than it now does to direct

the taste and confirm the habit of reading what is good rather than what is bad." Thus the primary purpose of teaching reading is to teach what to read, and to develop a taste for reading, and for reading good literature.

For this purpose, our schools should be supplied with the best literature. The children should have books of poetry, of fiction, biography, etc., not fragments, but complete works, and they should have a fairly liberal supply. In a city like Berlin, where the literary standard of many homes is not as high as in older communities, this is doubly important. Lowell, in "Books and Reading" says "Cato's advice, 'consort with the good,' is quite as true if we extend it to books. for they, too, insensibly give away their own nature to the mind that converses with them. They either beckon upwards or drag down."

This movement for the substitution of standard literature for the old time "scrappy" readers, has the hearty support of such leaders in education as Pres. Eliot of Harvard; Pres. Gilman of Johns Hopkins University; Pres. Hall of Clark University; Pres. W. E. Harper of Chicago University; Edward Clarence Stedman; Horace E. Scudder; W. E. Maxwell, Supt. of Schools in New York City; C. A. McMurry, Illinois State Normal University; O. T. Corson, Commissioner of Schools for State of Ohio, and many others of equal authority. "To my mind," says Mr. Corson, "the great problem in education to-day is the development of the reading habit, the training of boys and girls to love good literature, and I am quite sure that one of the best ways to solve this problem is to select from the master-pieces and study them as wholes." Supt. Maxwell says, "In my judgment, there has been no reform in public school work during the past few years of greater importance or more lasting benefit than the substitution of reading matter of the master-pieces of the best authors for the old-time school readers. The acquisition of the art of reading is beneficial only when it brings with it a taste for good reading. If a taste for bad reading is developed, reading were better left untaught. The best way to acquire a taste for good reading, and to eradicate the taste for bad reading is to read the best authors, and to read them entire and not by fragments."

In the execution of this work, the teacher is the most important factor. The value of the teacher's individuality is well shown in Dr. McMurry's "Special Methods in Reading" in which he speaks as follows:—"There is a double advantage in using the best master-pieces which are adapted to the spirit and temper of the

children in the successive grades. The great body of our teachers need the culture that comes from these literary treasures. Let no teacher think he is humbling himself by reading children's literature. If all the teachers of our land could be induced to enter upon a careful reading of a dozen classics for children, the temper of school teaching in this country would be changed for the better." Supt. Balliet, Springfield, Mass., says:—"To lead pupils to enjoy it, the teacher must enjoy it himself. A teacher who cannot do this, may have the brains to teach algebra, but no soul to teach literature. To arouse interest, the story or plot must be constantly kept before the minds of the class."

Such authorities as these, supporting the position we have taken, are sufficient guarantee that we are on the right track, and the fact itself may be considered as evidence that our schools are not lagging in their methods nor far behind the best schools in the state in the quality of work done.

Next year we hope to be able to present an outline of what our pupils are reading in all grades, but the length of this report makes it advisable that that part be omitted this year.

### Spelling.

Some ten or fifteen years ago, it was thought best, in most New England cities, to dispense with spelling books. It was thought that spelling could be relieved of much of its dryness if teachers were to select the words for each lesson from the text-books in use in school, in other studies. The plan has not been an unqualified success, as it virtually forced each teacher to compile a spelling-book of her own. Your Board are of the opinion that the ability to spell has deteriorated in all schools where this has been done, and we propose to re-introduce the spelling-book in all grades as rapidly as may be. The old plan (of doing without books) commended itself on the score of economy, but while it proved to be economical in one direction, it was far too expensive in another.

### Expenditures.

The amount expended for school purposes is \$11,465.22, being an average of \$17.04 for each pupil, using the average membership

of the fall term, 1899, as a basis. These expenses include the following items:

Salaries of teachers .....	\$7,723.48
Fuel .....	1 055.11
Care of rooms.....	718.75
Textbooks .....	508.62
Paper, pencils and other supplies.....	278.94
Repairs .....	520.88
School furniture.....	124 00
Water rent.....	140.81
Incidentals .....	354 63
	<hr/>
	\$11,465.22

The item for repairs includes the shingling of the High School building, at a cost of \$280.00, and the installation of flush closets in the Sessions building, at a cost of \$196.00.

The following table shows the amounts expended for school purposes since 1896, with the cost per pupil, based upon the average membership, which is also given, together with the number of teachers employed. These figures are for the school year, which ends August 1, and are taken from the reports sent to the state at that time. The "whole cost" includes the amount paid for interest on school indebtedness, and also the salaries of the School Board, items which are not included in the summary above.

Year Ending Aug. 1.	Whole Cost.	Average Membership.	No. Teachers.	Cost per Pupil.	Cost per Pupil for Books, etc.
1896	\$10,976.20.	341	15	\$32.12	\$2.34
1897	11,962.44	570	16	20.98	1.67
1898	11,302.57	603	17	18.75	.50
1899	11,899.23	634	19	18.76	1.10

It will be seen by these figures, that while the average membership has steadily increased during the past four years, the cost per

pupil to the city, both total cost, and cost for supplies, has steadily decreased. The cost of educating each pupil in 1896 was \$32.12. For the year ending June, 1899, the cost was \$18.76. This is below the average throughout the state, which in 1897 was \$20.16. If our schools had decreased in efficiency along with this decrease in the per capita cost, there would be no satisfaction in the contemplation of these figures. But we are getting double the returns this year that we did four years ago, and though the attendance has nearly or quite doubled since then, the expense has been lessened to one fourth, proportionately. Other statistics will be found in tables at the end of this report.

### Text Books.

The number of text-books in use, February 15, 1900 is 4496, distributed as follows:

	Text-books.	Reference Books.
High School Building.....	2022	31
Brown .....	523	17
Marston.....	647	49
Mason street.....	271	21
Sessions.....	51	0
Wheeler.....	25	0
Supply room, Marston School.....	839	

The number of books worn out and discarded at the end of the year is 189; 239 have books been returned to the publishers during the year, in exchange for new ones. It is estimated that about twenty-five books are missing.

The cost per pupil for text-books this year has been seventy-five cents, and for paper, pencils and other supplies, forty-five cents, using as a basis the average membership for the fall term, 1899. The total cost per pupil is \$1.21. Dr. Campbell, principal of the N. H. State Normal school, recently said that he considered \$1.50 a fair sum to be expended in supplies and books for each pupil, although the average through the state is somewhat less than that.

### Mid-Winter Promotion.

This plan, of promoting pupils, who are capable of doing more than the average required work, to the next higher grade in the

middle of the year has been in operation for three years. During that time eleven pupils have been thus promoted while in Grades VI, VII and VIII, and the results have been most satisfactory in every way. These mid-year promotions are of great benefit to the pupils promoted, and they also effect a saving to the city. For if eleven pupils each save a year's attendance at school, there is a saving of eleven years in the aggregate for one pupil, or a saving of eleven times the cost to the city of the education of one pupil for one year. Further than this, the possibility of promotion in the winter term does away with the cast-iron inflexibility of the graded system, which is the one serious objection to it. A high authority speaks as follows: "A child should be removed from a grade as soon as it is evident that he is either over-taxed, or not taxed enough." By this scheme of mid-year promotions, the graded system becomes adjusted to the child, and not the child to the system. In accordance with this arrangement, one pupil in the High School, did the work of the five upper grammar grades in three years, and maintained a uniformly high rank during the whole time. To have asked this pupil to have occupied the other two years in doing the work would have been an injustice to her, to her parents, and indirectly to the tax-payers.

Plans similar to this are in operation Lewiston, Me., Cambridge, Mass., Keene, N. H., Woburn, Mass, Elizabeth, N. J., Dayton, O., and in many other places.

Hon. Frank A. Hill, secretary of the Mass. State Board of Education, in a recent report, writes as follows: "The conviction is becoming strong that the grading of children should be of a more plastic or flexible sort, that opportunities should be more frequent for children to move along in their studies. . . . To retain the advantages of grades and classes on the one hand, and to respect the varying rates of individual development on the other; this is a problem on whose solution many are hard at work. There are possibilities here of great savings in the money cost of the schools as well as in the intellectual progress of the pupils."

The standard required for promotion in March is 90 per cent. out of a possible 100, on the entire marked work of the first and second terms. No pupil can expect to attain this rank unless exceptionally quick to "catch on" to new work, and endowed with an unusually retentive memory. But every year there are a very few whose abilities are of this order, and such pupils should be allowed to advance at a more rapid rate than those of average capacity.

Next year, the Board will consider the advisability of extending this system to grades below the sixth.

### High School.

Under the able management of our principal, the High School has risen to a higher plane than at any previous time in its history. More work is being done, and being done in a more thorough manner than heretofore. The lessons are such as ought to be required of earnest students, and so far as we know, the pupils bend themselves to unwonted tasks with a will and perseverance that is of lasting credit and benefit to them. Owing to a slight readjustment of the work in natural science, by which a year's time is saved in one study without loss of study, we are able to round out the instruction in mathematics by a course in solid geometry and trigonometry, for which there has hitherto been no time. Besides being of some practical benefit, these studies afford the far higher value of being excellent means for mental training, the chief end of a high school course. There are people who persistently misunderstand the reason for the existence of a high school, who therefore consider many of the studies taught there as "frills and fads;" who because its graduates cannot at once, without previous preparation, appear at the top of any particular trade or business, stigmatize it as impractical, of no use, an ornamental appendage to the public school system, etc. Even the pupils themselves often are mistaken as to why they are in the High School, and seem to think that the sole reason is that they may become more or less acquainted with the studies taught there, and that if in five years they have forgotten the greater part or all they learned there, the time spent was wholly and utterly wasted. Nothing could be farther from the truth. There is such a thing as mental training. It increases a person's usefulness at least as much as the usefulness of a trained horse is above that of an unbroken colt. The appliances used in training a colt may be and often are, of no use after his training is accomplished, but it would be absurd to decry their value, because they were of no further utility.

The studies in a high school are so many appliances for mental culture, needful, perhaps, only in training boys and girls to be useful and civilizing influences in the community, but, nevertheless, invaluable in their place.

It is through a false notion of catering to this delusion concerning the high school, the seemingly impractical value of its courses,

that such branches as type-writing, short-hand, etc., are sometimes introduced into the curriculum. These studies fit for special lines of work and the high school is not a trade school in any sense. If we introduce type-writing and short-hand, why not also introduce blacksmithing and dressmaking? There is as much sense in the ducing of the former as of the latter.

Boston business men recognize the value of high school training. In a recent issue of the "Journal" we noted an advertisement for a boy wanted in a wholesale woolen goods house, "GRADUATE OF HIGH SCHOOL PREFERRED." Such advertisements are common in the paper mentioned. It is not because a knowledge of Latin, or of geometry, or of history, is necessary in the woolen business. It is because the mind trained by means of these studies, is superior and worth more in any business, than a mind which has been without of such discipline.

We are pleased to note that the total registration in the high school this year is greater than ever before, 54 pupils being enrolled in the fall term.

### Training Department.

There are at present two pupil teachers attending the training school, one a graduate of the Berlin high school, and the other of Searsport, (Me.) high school. This department aims to train young ladies who have the necessary qualifications, to become acquainted in a practical manner, with the best methods of primary work. There is no intention of training for the higher grades. The results thus far are such as fully justify the continuance of the school. In Berlin, the chief benefit lies in the fact, that with one exception, all our first grade teachers are graduates of our own training school, and thus the instruction in these grades has a uniformity in method which is highly desirable, and well-nigh doubles their efficiency. Further, having at all times a number of our own trained teachers from which to make a selection, we are enabled to secure better teachers than if we depended upon various training schools elsewhere. Similar departments are found in connection with the public schools of Portland, Me., Manchester, N. H., Nashua, Chelsea, Mass., Woburn, Somerville, Lowell, Quincy, Natick, Lewiston, Me., and numerous other places where the

schools are alive and progressive. It is proper to say in this connection, that there seems to be a mistaken idea throughout the city, that the trainers are such a help to the schools, that the Board ought and virtually does agree to give every trainer a salaried position in the schools whenever one occurs. There is no such agreement. We consider that instead of the city owing the trainer a position, the trainer owes something to the city, and we require graduates to agree to teach at least one year on salary to pay this debt IF THEIR SERVICES ARE REQUIRED. Trainers are admitted solely for their own profit—the schools are only benefitted indirectly thereby, and their presence is often extra trouble to the teacher in charge of the school. It should be distinctly understood that the city incurs no obligation to give trainers employment. Further, every trainer is requested to substitute in grades where she is able, and receive no pay therefor, during the first eighteen weeks of her training. After the eighteenth week, the teacher whose place she fills, is expected to pay her at the rate of \$1.00 per day.

### Superintendence.

At the last meeting of the legislature, an act was passed whereby towns of less than a certain valuation and not employing a superintendent of schools, should receive sufficient aid from the state to pay one half the salary of such an official. Now a competent man, trained for the work, could be secured for \$1200 a year. Such a man could divide his time between Berlin and some other town like Gorham, Whitefield or Milan, in the proportion of three days in Berlin and two days in the other town, and while the state paid half his salary, three-fifths of the other half, or \$360, would be paid by Berlin, and the remaining two-fifths by the other town. It is needless to go over the advantages, the increased efficiency of the school work, that would result from adequate supervision. There is as much need of superintendence in a system of twenty graded schools like ours, as there is in a system of paper mills, and for the same reason, viz:—increased returns from the capital invested. We have harped on this string so much in previous reports, that it seems superfluous to say more than we have already done. We commend the subject to the careful and practical consideration of the Committee on Public Instruction and of the Mayor. We feel that the value of business-like supervision has heretofore been either lost sight of, or else strangely underestimated.

## School Census.

April, 1899.

Population of City, April, 1899.....	8,021
Boys between 5 and 16 years of age.....	901
Girls " " " " " " " ".....	847
Total .....	1,748
Boys in public schools.....	317
Girls " " " ".....	283
Total.....	600
Boys in parochial school.....	310
Girls " " " ".....	286
Total.....	596
Boys not attending any school.....	271
Girls " " " ".....	277
Total .....	548
Boys attending out of the city.....	3
Girls " " " " " ".....	1
Total.....	4
Boys working contrary to law.....	24
Girls " " " ".....	12
Total.....	36

The number of children in the city between 5 and 16 years of age in April 1899, was 1748, an increase of 124 over last year. Of these 600 were said to be in the public schools, 596 attending the convent, and 548 were not enrolled in any school. 106 between the ages of 10 and 16 years could not read the English language. Four were attending private schools out of town, and 36 were engaged in the mills and shoe factory, although contrary to the statute. A table is appended showing the distribution of children by wards.

	In Public Schools	In Convent	Not in any School	Out of Town	Total	Not Read- ing English (10-16 years)
Ward 1.....	210	181	190	3	584	34
Ward 2.....	170	257	207	1	635	51
Ward 3.....	220	158	151	0	529	21
Totals.....	600	596	548	4	1,748	106

An examination of this table shows that the number of children in each ward above 10 years of age who cannot read English, is in inverse proportion to the number who attend the public schools. In that ward where public school attendance is largest, we find the smallest number who cannot read English.

### Schools.

The number of schools in each grade in September 1899 was as follows:—

High School,.....	1
Grade IX, .....	1
“ VIII,.....	1
“ VII,.....	1
“ VI,.....	1
“ V,.....	2
“ IV,.....	2
“ III,.....	3
“ II,.....	3
“ I,.....	4
Mixed school, .....	1

### Teachers.

High school, (men 1, women 1).....	2
Grades VI to IX included,.....	3
Grades I to V included,.....	13
Mixed school,.....	1
Graded schools, (one grade in a room),.....	13
Semi-graded, (two grades in a room).....	3

### \*Pupils.

New pupils entering in fall term,.....	161
Whole number pupils enrolled September, 1899,.....	789

---

\*These statistics are for the fall term, 1899, not for the entire year.

Average daily attendance,.....	587
Average number in High school,.....	45
Average number, Grades VI to IX,.....	121
“ “ “ IV and V,.....	135
“ “ “ I to III,.....	361
“ “ Mixed School.....	10
<hr/>	
Total average number belonging,.....	672
Number pupils in largest school (Session, Room 1)..	60
Number pupils in smallest school (Wheeler),.....	14
Cost per pupil for text-books and supplies, year ending February 15, 1900,.....	\$ 1.21
Cost per pupil for tuition, year ending February 15, 1900,.....	\$11.49

(The basis of these averages is the average number enrolled in the fall term, current year.)

The increase in enrolment over the past year is 57, while the average daily attendance is two less than that of the fall term of last year. We are at a loss to account for this falling off in attendance, but it means that parents are still oblivious of the importance of regularity in this particular. Until pupils can be made to attend punctually every session of school they must not blame their teachers if they are not promoted at the end of the year.

The average number belonging to the schools, taken from the fall registers is 672, an increase of 23 over that of last fall. 161 pupils entered the schools last September, who were never before enrolled. The discrepancy between the increase in the average membership (23) and the number of new pupils entering (161) is to be accounted for by the fact that pupils leave school in large numbers between grades V and VII.

Only 30 per cent of all pupils go beyond the sixth grade, as will be seen from the table showing the distribution of pupils by ages and grades through all the schools. In other words, 70 per cent of our pupils leave school before they are thirteen years old. The average school life of children in the Berlin public schools is 3.6 years. In Massachusetts it is seven years, and through the rest of the states it is four years, so that in Berlin it is .4 of a year less than the average in the Union.

The table referred to also shows the average age, in each grade, the per cent of the total enrolment in each grade, and the number of pupils in each grade.

### Recommendations.

For the ensuing year, we recommend appropriations as follows:

Salaries.....	\$8,834.00
Care of rooms .....	800.00
Fuel.....	1,000.00
Water rents.....	200.00
Repairs.....	500.00
Incidentals.....	1,000.00
Text-books and supplies.....	800.00
Total.....	<hr/> \$13,134.00
Amount expected from the state.....	1,500.00
Amount to be raised by taxation .....	<hr/> \$11,634.00

It is to be hoped that these several amounts will not be cut down. By referring to the report of last year, it will be seen that the sum there recommended for the year just closed was but \$35.00 in excess of the amount actually expended. Your committee have carefully gone over the probable cost of the several items incurred in running the schools for another year, and have placed the above figures as low as is possible without crippling the service.

COLUMBUS P. KIMBALL,	} Board o Education
HENRY W. JOHNSON,	
JOSEPH J. COBB.	

February 14, 1900.

Note.—Since this report was written, the Board of Education have learned that the salaries of the Board have this year been paid from the school appropriation instead of from the general appropriation for salaries as heretofore. No allowance was made for this item, and the school appropriation has been overrun by that amount.

# APPENDIX.

## Roll of Honor.

Pupils neither absent nor tardy for the year ending, June 16,  
1899.

### HIGH SCHOOL.

LEOLA DUSTIN.

### GRADE IX.

HERBERT B. COBB.

### GRADE VII.

JOHN MCLELLAN.

JOSEPH RANKIN.

THERESA STUDD.

### GRADE V.

ELIZABETH MCLELLAN.

### GRADE IV.

BERENICE MUNCE.

### GRADE III.

IRVING GOSS.

JOHN STOWELL.

### WHEELER SCHOOL.

EDDIE DAVIS.

## Graduation Exercises 1899.

### High School.

The graduating exercises of the Class of '99 occurred June 16 at the Clement Opera House. The graduating class numbered six members, as follows;

#### LATIN-SCIENTIFIC COURSE.

FRANK JOSEPH DOOLEY,  
MERLE J. HOLT,  
MARTHA ESTELLE FORREST,  
MAUD ELYNORA LANG,  
CAROLINE ESTELLE WHEELER.

#### CLASSICAL COURSE.

EDWARD BENEDICT MCGEE.

Of the above, Miss Lang received honors in history and mathematics. Miss Forrest received honors in history.

The program was as follows:

Prayer	Rev. A. T. Craig.
Salutary. Was it Murder?	Martha Estelle Forest.
Essay. Doors Now Open to Women,	Caroline E. Wheeler.
Class History,	Merle J. Holt.
Oration. Gems in Columbia's Crown,	Edward B. McGee.
Class Prophecy,	Frank J. Dooley.
Valedictory. Loyalty,	Maud E. Lang.
Conferring of Diplomas,	Chairman School Board
Benediction,	Rev. W. P. Ladd,

## Grammar School Graduates, June, 1899.

GUY BURBANK  
PERLEY CHURCHILL  
WENDELL CHURCHILL  
HERBERT COBB  
LINWOOD CONDON  
JOHN GOEBEL  
THOMAS GOEBEL  
THEODORE GREEN

TRUSTEES' SEVENTH ANNUAL REPORT

—OF THE—

PUBLIC LIBRARY

—OF THE—

CITY OF BERLIN, N. H.,

FOR THE FISCAL YEAR ENDING FEBRUARY 15, 1900.

---

Organization.

HENRY W. JOHNSON, M. D., Chairman, Term expires March 1900

HERBERT I. GOSS, . . . . . Term expires March 1901

FRED L. CLEMENT, . . . . . Term expires March 1902

HATTIE L. JOHNSON, Librarian.

MAE BICKFORD, Assistant.

## TRUSTEE'S REPORT.

BERLIN, N. H., February, 15, 1900.

*To His Honor the Mayor, and the City Council of the City of Berlin:*

GENTLEMEN:—The Trustees of the Public Library herewith submit their seventh annual report, being that for the year ending February 15, 1900. For statistics of circulation, we refer you to the report of the Librarian, which is appended.

The financial status is as follows:

### RECEIPTS.

Appropriation .....	\$650.00
Fines, balance from Librarian.....	25.00
Total .....	<u>\$675.00</u>

### EXPENDITURES.

DeWolf Fiske & Co., books.....	\$127.39
Hattie L. Johnson, Librarian,.....	200.00
F. M. Clement, rent of rooms.....	175.00
Berlin Elec. Light Co., 11 inc. lights and supplies.....	58.76
Library Bureau, supplies.....	56.00
Norman H. White, book binding.....	20.55
F. L. Sanders       "       " .....	17.42
U. S. Government, 500 stamped envelopes .....	10.60
Childs & DeGoll, books.....	3.00
C. C. Gerrish & Co., curtains, etc.,.....	4.01
G. W. Gordon, glazing.....	3.00
E. J. Barney, printing.....	2.50
H. W. Johnson, books purchased.....	2.50
Chas. S. Clark, sundries.....	2.25
Total.....	<u>\$682.00</u>

We are pleased to call your attention to the explicit report of the librarian, and to what she states in regard to the improvement in the character of the circulation. The fact that the per cent. of fiction reading has dropped to .80 is itself one of the encouraging signs of the times in Berlin. During the first complete year of the library's existence, the per cent. was 96, if we remember correctly. In Dover it is about 50. Next year we hope to lower our record to at least 75.

It seems to the trustees that there never was a time when so many boys and girls were using the library, both for pleasure and profit, as now. More provision must be made for them, and the shelves must be well stocked with good, wholesome juvenile literature for their use. Library patrons can be divided into two classes; first, those who desire books merely for recreation and amusement, or to while away idle hours; second, the student class, (not the schools, exclusively) who are seeking definite knowledge. The former, in any community, is by far the more numerous. In the selection of books, your trustees endeavor, as far as they are able, to deal justly with both classes, although we confess to a weakness in favor of the latter class. Then, too, there are certain standard works, without which a library is manifestly incomplete, but which are seldom called for. How far we should cater to the fickle demands of the moment, which call for the latest successful sensation, and how far we should respond to our judgment as to what books obviously belong in a good library, whether called for or not, is a problem with which we are still struggling. While we have added the usual amount of fiction this year, we think we have increased the accessories in other departments, particularly history, at a greater rate than last year. The needs of the school children are constantly kept in mind, and the way in which they devour what we place before them is ample evidence that our work in their direction is appreciated and bearing fruit. To the teachers belongs most of the credit for what is accomplished in this line. There never has been a year when they have done as much to introduce their pupils to the library, and to show them not only what may be found there, but also how to find it, as the year just closed. Much remains to be done, and we look forward hopefully to further advance in this direction in the year to come. We firmly believe that the two principal factors in the salvation of Berlin, in raising its intellectual level, are the schools, particularly the high school, and the library. And on its intellectual status depends its future.

There is no better way to accomplish this than by giving lib-

eral support to its educational institutions and its churches. Without these, it would be uninhabitable. We have no reason to find fault with the manner in which the Council have dealt with us. We consider our appropriation a fair and even liberal allowance, other things being considered. Berlin is an expensive place in which to do anything, whether one digs a ditch or manages a library. Our rent bill and light bill make inroads on our appropriation, which are not felt by town housing its library in a municipal building. We know towns in this county where the library pays neither for rent, heat nor lights, and such a library can make a better showing for the money appropriated than we are able to do.

But we doubt if any library is getting better results for its labors, either in the schools or among the reading public.

For the ensuing year we recommend the same appropriation as last year, \$650.00. An extra \$50.00 could be well invested in the electrical department, which has but a meagre supply of books, which are, however, handled and turned over again and again by those engaged in that special line of work. Some years ago, Mr. John H. Wilson gave an entire set of works on practical electricity to this department, which were of much value; indeed, they constitute its basis, but few have been added since. It should be generally known that the trustees are glad to receive requests or suggestions regarding books considered desirable for the library, and blank forms for making requests can be had of the librarian. Suggestions made verbally, or in any other way than on the forms provided, are apt to be forgotten.

H. W. JOHNSON, HERBERT I. GOSS, F. M. CLEMENT,	}	Trustees.

Cash on hand, Feb. 15, 1900,.....	1.91
Total.....	<u>\$52.08</u>

A comparison of the circulation by classes shows a gratifying increase in the proportion of books other than fiction. While the increase in fiction-reading over last year is but 31 per cent, that of history is 86 per cent; travels, 130 per cent, and natural science 110 per cent. Last year, 86 per cent of the circulation was fiction. This year it is 80 per cent. This is not because people are reading less fiction, but because they read more non-fiction. This means that the patrons of the library are beginning to use the institution less as a means of recreation, and more as a place for self-instruction, that the library is taking a deeper and more beneficial hold upon the public than heretofore, and that there is an increasing demand for something besides a novel. This is, in a measure, due to the attitude towards the library of many of our teachers, but more to various devices by which readers are introduced to books other than fiction.

Many of the teachers are using the library in a way that is gratifying. Mr. Wight, Misses Whittum and Stanley have especially encouraged library reading among their pupils. Our method is to select twelve or twenty books, suited to children just acquiring a

taste for "long stories," and send them at the request of a teacher, to his school room. The teacher loans them to pupils, and at the end of two weeks they are returned, and thus the school becomes practically a branch of the public library. In this way, much is done in getting children to form the reading habit, and to acquire a taste for good reading, rather than for the "blood and thunder" style of literature which abounds in murderous adventures, monstrous and impossible incidents of love, vice, and so-called virtue.

Students from the upper grammar grades as well as from the high school are using the resources of the library in the preparation of their lessons, particularly in history. They also resort to the library for material for debates, searching through cyclopedias, dictionaries, and other aids, for arguments and illustrations. To meet the demands of this kind of use, taxes the reading room sorely on account of limited space, but it is the highest use to which the library can be put.

An important innovation is the action of the State library at Concord in placing its volumes at the disposal of town libraries through the state. By this means, it is possible for any person making written application, to borrow through our library, any volume in the State institution. Several have availed themselves of this privilege during the year. The only expense is the payment of the express both ways on the volume borrowed.

Another step in advance is the issuing of non-fiction cards to those who desire them, in addition to the ordinary cards, thus allowing persons to take two books from the library at the same time, on condition that one at least must be a book which is not fiction. These cards are cherry-color, and, it is believed, have done much toward opening a broader field of literary vision.

During the seven years of its existence the library has lost ten books. In a city like Berlin, where so many of its population are "transients," the wonder is that the number lost is not greater. Eternal vigilance on the part of the librarian is the only safe guard against greater loss. Miles have been traveled, visit after visit paid to the same family, by the librarian in order to recover some book heedlessly mis-laid, or sub-loaned to some friend. Letters have been written to nearly every eastern state to recover books carried away by parties who neglected either to return the work, or to notify of change of address, as is required by the regulations. The

ten books were borrowed by people who simply disappeared during the night, as it were, leaving no trace or trail behind.

Twenty-two books have been thrown aside as no longer in condition for use. One book was destroyed by the fire in the Cote block. Four, exposed to contagious diseases, were burned.

Unbound volumes of magazines have been given by Mr. Hiram Rowell, Rev. W. P. Ladd, Mr. W. E. Taft, Mr. Chas. R. Denning, Mr. W. D. Bryant, Mrs. Geo. Burgess and Mrs. P. T. Pepin. Framed pictures have been given by Mr. Ladd, The Friday Night Club, and Dr. P. T. Pepin. Recently, February 8, the ladies of the various religious societies provided a supper, which netted the library \$64.33. Of this sum, \$35 is already expended for Winsor's valuable History of the United States in eight volumes, and the balance will be expended later under direction of the trustees.

No printed list of books has been published since September, 1896. There is urgent need of such a list, containing those added since that time. I commend this to your immediate attention.

More freedom than ever before has been allowed this year in permitting access to the shelves. Indeed, the high school students have been given the greatest latitude in this regard. And they have used their privileges with such discretion, that the custom will be continued indefinitely.

The subjoined table shows the comparative circulation for the past six years, or since the library was opened.

Year ending Feb. 15.	Volumes in Library.	Volumes delivered.	Average per day.
1895	606	3225	40
1896	1778	6132	63
1897	2158	9265	60
1898	2407	11507	37
1899	2576	9684	31
1900	2796	13771	45

The variation in these figures is somewhat misleading. In 1898 the library was thrown open every day in the week instead of three days, as before, but it was not generally known. This lowers the average per day. In 1899 the total circulation dropped, because people spent so much time reading war news, little was left them for any other literature.

Notable books added during the year are Lodge's History of

the Revolution. Winsor's "Westward Movement," Winsor's "Narrative and Critical History of the United States."

Books have been donated as follows:

United States Government.....	23
Dr. H. W. Johnson.....	13
Part proceeds of supper, February 8, 1900.....	8

72

In conclusion the librarian takes this opportunity of expressing her appreciation of the helpful services of her assistants during the year, Masters Fred Oleson, Robert Goebel, and Miss Bickford, whose faithfulness and reliability has contributed so largely to **whatsoever** measure of success has been attained during the twelve-month just closed.

Respectfully submitted,

HATTIE L. JOHNSON, Librarian.

## Assessor's Recommendations.

---

*To the Mayor and City Council:*

GENTLEMEN:—It is to be regretted, that in your judgment, it was thought best to put off the procuring of such maps as were recommended in the last report. They would assist the officers in this department very much in ascertaining if all of the taxable property was really upon the books. It need not necessarily be accomplished in one year but might be started in sections and completed in the course of years. We hope for the benefit of our successors you may be able to see your way clear for this in the near future.

We would also recommend that when you appoint a board of assessors that they shall serve the city as long as the collector does for that year, and that all abatements shall be made by the officers who assessed the taxes. These taxes are consigned to the collector under circumstances connected with the valuation of property known only to that board, and they have made their valuation according to their best judgement, consequently it seems hardly fair to them, or to the city, to allow another board to sit upon their work. This would not be necessary if it was the custom to keep at least two of the board on for a term of years, but as it is not, here in this city, some way should be arranged so that such large abatements need not be necessary. We have so far as possible, placed the residence of every poll tax payer upon your inventory books. This method can assist the tax collector very much in his work, if he is disposed to benefit thereby. It involves a great deal of extra labor, but the advantages to many besides the collector are sufficient to warrant its continuance.

The use of street books to be preserved in the clerk's office is another innovation which has been found to be an improvement and will, we think be acceptable to our successors.

The work, to a certain extent, has been for the past year separated from that of the city clerk, to an advantage and should, in

our judgement, be carried still further to the advantage of the city.

Respectfully submitted,

MOSES HODGDON, }  
W. A. BOOTHBY, } Assessors

---

*To the People of Berlin and our Successor's:*

GENTLEMEN:—I beg to submit to you a few lines in regard to the present and future methods of assessments of taxes in the City of Berlin.

The present Board of Assessors have in the past two years, tried to establish a method which should correct many of the errors and wrongs existing in the valuation and taxation of property in Berlin, and have unflinchingly carried this method forward in all cases. Yet there remains much to be done in the future, for with the limited time to be used each year, new men to the work, and the great amount of work required. It is impossible to get at a perfect system without errors, at one step. So that there remains some corrections to look to, in the coming year. First I would call attention to the fact, that in some cases we find property valued too high, some too low, and in a few instances not taxed at all.

In view of this, in the past year we prepared and kept a special set of field books for the coming year, showing the location of each piece of property, value and name of owner with many other notes to help with the comparison of the property in the coming year; and as valuation and taxation should aim at equality with these books taken along in the field work, the assessors could locate at once any piece of property and compare its valuation with other property adjoining, noting if any changes had been made or if the property had depreciated in value. All this would be done while looking at the piece of property under discussion and not after returning to the office and out of sight of the property.

This method I think, would result in doing away with some of the errors of inequality in valuation, omission and double taxation.

I would suggest that as far as possible each piece of property be described and valued separately so that each can be compared by itself, and that these field books be kept, and filed, so they can be referred to in each subsequent years.

For the past year the rate per \$100, valuation was lowered some small amount which would make but small change in amount of individual taxes, but shows a decrease which is on the right side and I think with careful management in all departments of the city for the coming year the rate will remain the same if it is not lowered some small amount.

Yours very truly,

JOHN C. WEST, Chairman Board of Assessors.

## REPORT OF FINANCE COMMITTEE.

---

Berlin, N. H., February 15th, 1900.

To the City Council :—

The books of the City Treasurer have been examined and compared with those of the City Clerk by your committee on the finance and all accounts are found to be correctly kept with proper vouchers on file for all payments. The sources from which the income of the past year has been derived have also been examined and the Treasurer has charged himself with the amount received, and has made a correct statement of the same in detail.

The balance of cash in the hands of the Treasurer is twelve hundred and fifty dollars and seventy-eight cents (\$1250.78.) The Treasurer's report is annexed to and made a part of this report as required by Section 1, of the City Ordinances, we herewith submit an estimate of the amount of money necessary to be raised for the ensuing year, under the various heads of appropriations.

City Engineering,	\$ 500 00
City Poor,	1,300 00

## AUDITOR'S REPORT.

---

BERLIN, N. H. February 15, 1900.

*To the City Council:*

I have carefully examined the accounts of the several officers for the year ending February 15th, 1900, and find the same correctly kept and properly vouched for. The changes I made last year in method of keeping the books have been continued this year.

N. G. CRAM, City Auditor.
